-:About the Topic :-

Intellectual property has placed itself on a pedestal in the context of economic growth and is becoming increasingly important. Intellectual Property (IP) is the fuel that powers the engine of prosperity, fostering invention and innovation. The increasing significance of intangible assets in the global economy is forcing business organizations to actively manage their IP as a key driver for building and sustaining their competitive advantage and achieving superior performance. It is also important to promote intellectual property licensing practices, particularly, with a view to foster creativity, innovation and the transfer and dissemination of technology to developing countries and least developed countries. Enforcement of IP rights is another major area which deserves serious mention in the policy. There should be effective enforcement of the IP laws so that the issues of piracy and counterfeits which results in huge losses to various industries can be mitigated. Hence capacity building activities must be carried out with vigor to enhance the IP enforcement in the country and to make India a destination for international IP Filings.

-:Objectives of the workshop“-

On the above backdrop, Department of Basic Science & Department of Biosciences jointly organized this workshop on Intellectual Property Rights. The focus of the seminar was to promote the creation, protection & enforcement of the Intellectual Property Rights amongst various stakeholders. The courses include general course on IPR; specialized courses on Competition Law and also adding courses on IP enforcement, IP Commercialization and Tech Transfer.

SUMMARY OF PROCEEDINGS INTELLECTUAL PROPERTY RIGHTS WORKSHOP

Venue:- Auditorium, Shri Ram College

Attendees:- About 35 faculties and 145 students from all departments of Shri Ram College

Introduction

In today's globally competitive environment, intellectual property has placed itself on a pedestal in the context of economic growth and is becoming increasingly important. Intellectual Property (IP) is the fuel that powers the engine of prosperity, fostering invention and innovation. The increasing significance of intangible assets in the global economy is forcing business organizations to actively manage their IP as a key driver for building and sustaining their competitive advantage and achieving superior performance. On the above backdrop, Department of Basic Science in association with Department of Agriculture and Biosciences organised a Seven Day Workshop on "Use of Intellectual Property Rights providing Modern Methods" on September 4th, 2020 to September 10th, 2020 in Auditorium of Shri Ram College, Muzaffarnagar. The focus

of the workshop was to promote the creation, protection & enforcement and modern methods of the Intellectual Property Rights amongst various stakeholders.

IPR has gained center stage and has attained more focus, more attention and is a subject matter of discussion between government, institutions, industries under various regimes and protocol that are put in place to ensure that the world in which we live, where knowledge and innovation are the engines of development and growth. In that world, those who have the creative minds and ability should feel assured that not only their efforts have been duly recognized but it is secured in a specified manner.

It is also important to promote intellectual property licensing practices, particularly, with a view to foster creativity, innovation and the transfer and dissemination of technology to developing countries and least developed countries. India should share its IPRs for the betterment of other nations as done in the past. There has to be both free transfer of technology which will address the challenge of climate change and also transfer of recourses to poor countries.

Enforcement of IP rights is another major area which deserves serious mention in the policy. There should be effective enforcement of the IP laws so that the issues of piracy and counterfeits which results in huge losses to various industries can be mitigated. The only EOW that we have in Country is not sufficient enough to deal with IP crimes happening in across the country. Hence capacity building activities must be carried out with vigor to enhance the IP enforcement in the country and to make India a destination for international IP Filings.

Dr. Aditya Gautam, Principal Shri Ram College, Muzaffarnagar spoke on the basic and modern concepts of Intellectual Property Rights. "Intellectual property" are type of property that results from creation of the human mind, the intellect. Intellectual property management starts with the germ of an idea. IP by itself neither helps nor hinders development necessarily. It is how laws, policies and practices are designed and used in different countries that determine whether IP is effective for development purposes.

Further, there are intellectual assets and then there are intellectual properties- intellectual properties are where a government gives you an authority in return of an annuity, just like normal property; but before an IP there is something called the intellectual assets, where you keep them as trade secrets. He mentioned on the various Indian laws available where one can take help in case of infringement of his or her IP Rights

Dr. R.P. Singh, Director, Shri Ram College of Law, Muzaffarnagar addressing the workshop, stressed on the need to set up a Patent Office in Muzaffarnagar in order to make it easier for the region to raise queries in matters of Intellectual Property and pace up innovations. He also emphasised the dire need to shift focus on investing in knowledge based capital.

Dr. Mohammad Arif, Associate Professor, Government Degree College Deobanda, stated that networking is very much necessary in order to facilitate the process of promoting Intellectual Property and this has to be ensured by organisations like FICCI. Speaking on the history of patenting in India, Dr. S K Mitra mentioned that in the beginning, around 3000 – 3500 applications used to be filed but now the no. of applications filed have increased to around 43,600.

Dr. Poonam Sharma, President, Shri Ram College Muzaffarnagar spoke on his practical experience of filing two patent application.

Dr. Saurabh Mittal, Chartered Accountant, Muzaffarnagar spoke on the various schemes on IPR Awareness available under the Ministry of MSME for MSME units

Mrs. Poonam, Advocate and Head, Shri Ram College of Law Muzaffarnagar and Mr. Vishal, Chartered Accountant speaking on Commercialization and Technology transfer issues faced by R&D Organisations, Industry etc. mentioned it is mostly the lack of IPR education, lack of interests amongst Industries to encourage R& D and lack of motivation to encourage

commercialization of inventions that's a major bottleneck in commercialization and Technology transfer.

Commercialization of assets

IPRs play a crucial role as the legal vehicle through which either the transfer of knowledge or the contractual relationship is effected. Alternatively, knowledge may be exploited inhouse, in which case the role of IPRs is to block imitating competition.

Commercialization can be defined as the process of turning an invention or creation into a commercially viable product, service or process. Commercialization may require additional R&D, product developments, clinical trials or development of techniques to scale-up production prior to taking the results of research to market. This is important because not all inventors or creators wish or have the resources, skill and appetite for risk to commercialize their own inventions or creations. Public research organizations (PROs) usually fall into this category.

Resources required

Converting an original or new idea, concept or design to a desired product available in the marketplace requires:

- Time
- Funds (own or borrowed)
- Creative effort
- Innovative effort (own, of employees and of external collaborators, partners, advisors and consultants)
- Persistence
- Focused management of the entire process from idea to market.

Conditions necessary to obtaining a commercial return

To obtain commercial returns from IP, certain conditions must exist. These include inter alia:

- The existence of a customer or the ability to create customers; and
- An entity controlling the manufacture and sale of the resulting products.

Assignment or sale

When rights are assigned (other than partially), the recipient or assignee acquires ownership of all rights which previously belonged to the assignor, although the assignor may take a license back from the assignee. This can be done between two independent parties, but it can also be done on an internal level and form part of employment agreements and agreements with consultants or contractors. Assignments of intellectual property rights can be done either via sales or via transfers, i.e. with or without direct financial compensation.

Licensing

Licenses allow patent owners to share inventions or other intellectual property in a controlled manner and to receive revenue (e.g. royalties) or other benefits (e.g. access to another firm's knowledge). A patent for example is licensed when the owner of the patent (the licensor) grants permission to one or more entities (the licensee(s)) to use the patented invention for mutually agreed purposes in a mutually agreed manner. In such cases, a licensing contract is generally signed between the two parties, specifying the terms and scope of the agreement. In some countries, intellectual property laws require licensing agreements to be registered with the national registry.

Subject – Proposal for organizing a workshop on the role of small scale business in the development of nation

Respected mam,

We are glad to state that the department of business administration is excited to organize a **workshop on the role of small scale business in the development of nation**. The very purpose of this workshop is to create a learning atmosphere and to consider entrepreneurship as a career and encourage their creative impulses to boost their confidence. Proposed date for the workshop is 23-11-2020 To 01-12-2020. Kindly approve the same as on this day, students shall finally bond and unite to celebrate being part of the college. We shall be highly obliged with your act of kindness.

Yours Sincerely

Intellectual Property Right

SRC/MZN/IPR/2020-21

Date: 21-02-2021

SEMINAR REPORT

The seminar commenced with welcoming the gathering by Dr. Ashwini Kumar, who explained different activities conducted by institute under IPR. Hon. Principal Dr. Purna Mittal explained need of IPR in the present days to hold our rights on our inventions and innovations in the present days which can help the innovators to shape their career as successful entrepreneur, in her presidential speech. Totally 156 participants including Students and faculty of the institute were participated in the programme.

Dr. Aditya Gautam had started the workshop with the history of intellectual property, in which the resource person introduced a few cases of people who were not aware of IPR and how they lost their rights on inventions as a result of this lack of knowledge, which further extended to the evolution of IPR. He then explained the formation of the World Intellectual Property Organization and its roles and functions, such as IPR agreement administration and IPR Practices harmonization. He also went on to explain the Indian scenario.

Dr. Girendra Gautam delivered the lecture on IPRs, especially patents and copy rights to create awareness amongst Participants

The resource person has acknowledged the contributions made by each committee member in organizing the IPR workshop.

Dr. Purna Mittal, the principal of the institute, Dr. Vinit Sharma, all of the academic administrators of the institute, the deans, faculty members, and participants, as well as the technical support team of the institute, received a vote of thanks from Dr. Vikas Tyagi.

Objectives of the workshop:

The purpose of the IP awareness training at our institute was to raise the likelihood that the researchers, staff, and students will be able to obtain well-protected ideas by developing a basic level of IP knowledge among the participants (students and faculty).

To create awareness about IPRs, especially patents and copy rights amongst Participants

- (faculty members and students) To provide a platform where experts, academicians, delegates as well as people at large
- Interact and exchange their ideas and knowledge pertaining to the emerging issues and challenges in the field of IPR. Guide researchers/inventors in respect of patenting their inventions
- To provide insight into practical applications of IP such as patent drafting, patentability search and freedom to operate search, validity/invalidity search, and evidence of use analysis.

Report

A Workshop Employment generation was organized by the Agriculture Department of Shri Ram College conducted by Dr. Aditya Gautam, Dean Academics Dr. Vineet Sharma, Principal Dr. Prerna Mittal and Head of Department Dr. Nayeem.

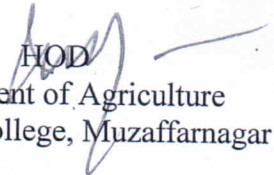

Dr. Aditya Gautam told Unemployment is generated and precipitated through a number of factors including growth of labour force; the inability of the economy to grow at a rate that would stimulate enough employment creation to absorb all job seekers; lay-offs in the public sector as a consequence of economic austerity programme; job selectivity among school leavers; seasonality of jobs; skills imbalance which results in vacancies co-existing with surplus labour; inappropriate technological applications; and failure of development programme to focus more sharply on areas with greater employment potential.

Dr. Nayeem, Head of the Department, said the need of the hour is to provide youth a bouquet of information so that they move in the right direction and bring prosperity to their family, society as well as contribute to the nation building process.

During this, Dr. Vikrant Kumar, Mukul Motla, Abid Ahmed, Rohit Kumar, Shubham, Akash, Raj Bahadur, Aman Tyagi, etc. were present in the department.
