Student Satisfaction Survey (Session 2021-22)

Shri Ram College has adopted a well-defined system of feedback where Student Satisfaction Survey (SSS) is conducted on yearly basis for receiving overall feedback from the students. A Student Satisfaction Survey is an essential part of any feedback system of a college. SSS helps college to formulate policies, plan strategies and implement student friendly practices throughout the year. All students studying in the college during 2021-22 were informed by Class Coordinators for this survey. Participation was voluntary, the survey was conducted offline and complete confidentiality was maintained. This survey was conducted in the month of June 2022 among all students available in the campus.

The survey was conducted by the team of teachers nominated by the Principal of SRC through a structured questionnaire, finalized by the IQAC as usual as in the last year. The motto of SSS is regular up-gradation the quality of education in the campus. This year teaching was performed in hybrid mode and syllabi were covered through online and offline classes by the faculties.

Respondents were asked to rate the importance of work and satisfaction for Institutional operations and services using a five-point, MCQ-type form consisting of 20 questions.

A total of 574 students participated in the survey. The survey results were tabulated in MS-Excel by the team for analysis and for continual improvement in processes and systems. The analysis was compiled into a survey report which was submitted to the Principal for review and approval. Survey report was sent to management after Principal's approval.
