----------------------------------	------------	----------------------------------	--

A one-day workshop was organized on the issue of "Managing Intellectual Property of Higher Educational Institutions" produced during the routine working of an educational Institutions. The chief guest Dr. Alok Gupta highlighted the role played by copyright, patents, trademarks, industrial design and geographical indicators. In his address he revealed the mechanisms in which the IP cell is supposed to function. He also explains the different forms, rules and acts such as Patent Act 1970, Indian copy right Act 1957 etc. Apart from this he also encouraged faculties to work towards seeking GI Tag for Jaggery which is native product of our district.
