The Principal,
Shri Ram College,
Muzaffarnagar.

Subject: Permission for offering a workshop on Opportunities and Entrepreneurship in Biotechnology.

Dear Sir,

As we all know that bio-entrepreneurship is a buzzword these days. Bio-entrepreneurship is an integration of two different disciplines – science and business. It is the flow of innovation from academia to industry. Bio-entrepreneurship is a broad concept and trending nowadays, which has set a very high standard for research and innovation in the country. To make aware of the students about the above department purposed to conduct a workshop titled “Opportunities and Entrepreneurship in Biotechnology”.

The workshop is scheduled on 29th April 2017 and coordinated by Dr. Vikas Kumar, Assistant Professor, Department of Bio Sciences for further information and registration process.

Kindly permit us to organize the said workshop in the benefit of students.

(Dr Ashwani Kumar)

HOD, Bio Sciences,
Shri Ram College, Muzaffarnagar.

Notice

It is to inform to all concerned departments of Shri Ram College that Department of Bio Sciences is organizing a workshop on Entrepreneurship titled "Opportunities and Entrepreneurship in Biotechnology". The workshop is scheduled on 29/04/2017. The purpose of the workshop is to familiarize the students with the importance & nuances of Entrepreneurship. Concerned HOD's are requested to inform the students.

Interested students are required to contact to the workshop coordinator Dr. Vikas Kumar, Assistant Professor, Bio Science Department, SRC for further information and registration process.

CC for information:

- The Director, SRC for Information
- All HoD's, Shri Ram College
- Dr. Vikas Kumar (Workshop Co-ordinator)

Detailed Report
Of
One Day Workshop
on

“Opportunities and Entrepreneurship in Biotechnology”

One Day Workshop titled “Opportunities and Entrepreneurship in Biotechnology” graciously organized by the Department of Bio Sciences, Shri Ram College, Muzaffarnagar on 29th April, 2017. Dr. R.S. Saxena, Former HOD Botany, Meerut College Meerut invited as the resource person of the event and workshop was coordinated by the coordinator of the workshop Dr. Vikas Kumar, Assistant Professor, Bio Sciences Department, SRC.

The workshop was inaugurated by the Principal Dr. R.S. Chauhan, resource person Dr.R.S. Saxena and HOD Bio Sciences, Dr. Ashwani Kumar by lightening the lamp and taking the blessings of Goddess Saraswati.

Thereafter, Speaker of workshop commenced the program by sharing his advisory and motivating words with the faculties, young scholars and students of the arena of Biotechnology background. He addressed the gathering to be focused and determined towards the learning of technological advancements and applying it for the betterment of mankind as well as for the economic growth of the state.

Biotechnology Development in India:

The speaker said that by 2025 the biotechnology sector in the country is likely to reach \$100 billion level with the present annual growth rate of around 20 per cent and may accelerate its average growth rate to about 30 per cent. Across the country more than 350 companies have been working not only in the area of vaccines and biopharmaceuticals, but also in agricultural biotechnology, industrial biotechnology, bio services, and bioinformatics. Despite the focus on industrialisation, agriculture remains a dominant sector of the Indian economy both in terms of contribution to GDP as well as a source of employment to millions across the country.

He said that agriculture plays a vital role in the Indian economy. Over 70 percent of the rural households depend on agriculture as their principal means of livelihood. Agriculture, along with Animal Husbandry, fisheries and forestry, accounts for one-third of the nation's GDP and is its single largest contributor.

Key Career Opportunities:

He beautifully and briefly explained about the Career Opportunities in biotechnology field, being a research-oriented science has great scope as the demand for biotechnologists has been growing in India as well as abroad. There are many applications of biotechnology such as developing various medicines, vaccines and diagnostics, increasing productivity, technological solutions improving energy production and conservation and biodiversity for sustainable agriculture, sanitation etc. The career opportunities for a biotechnologist range from careers in academics, industry to many other fields.

He ended up his words with the positivity that this workshop will mould the attitude of the young and upcoming Biotechnologists and woven the dream for the great future of India.

There were 55 enthusiastic participants in all including students and staff members who participated in the workshop. Participants also expressed their thanks to the hospitality and opportunity provided by the Department of Bio Sciences.
