INTRODUCTION

WHAT IS ANDROID?

- > A Software platform and operating system for mobile
- > Based on the Linux kernel.
- > Android was found way back in 2003.
- > It was developed in Palo Alto, California.
- > Android was developed by the Andy Rubin, Rich Miner, Nick Sears and Chris White.
- > Android was purchased by the GOOGLE in AUGUST, 2005 for 50 million \$.

OPEN HANDSET ALLIANCE(OHA)

What is OHA?

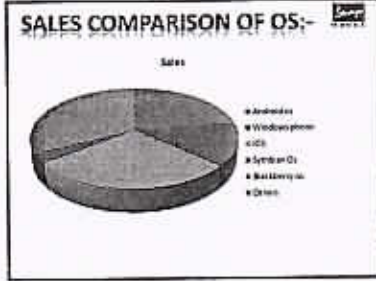

- > It's consortium of several companies.
- > This group of companies are allowed to use source code of Android and develop applications.
- > Reason for Nokia not to develop Android Mobile is Nokia is not part of OHA.

- ## FEATURES OF ANDROID
- Android is not a single piece of hardware.
 - Android supports wireless communication using:-
 - ↳ 3G Networks
 - ↳ 4G Networks
 - ↳ 802.11 Wi-Fi Networks
 - ↳ Bluetooth Connectivity
 - Android is a multi-process system, in which each application (and parts of the system) runs in its own process.

- ## FEATURES OF ANDROID
- Interface that is better than the previous touch screen mobiles.
 - User gets millions of applications that user can not get in any other mobile operating system.
 - Android supports advanced audio/video still media formats such as MPEG-4, H.264, MP3, and AAC, AMR, JPEG, PNG, GIF.
 - Developing an android application is not tough using SDK(standard development kit) and java emulator we can easily develop applications that we want.

COMPARISON WITH OTHER OPERATING SYSTEMS

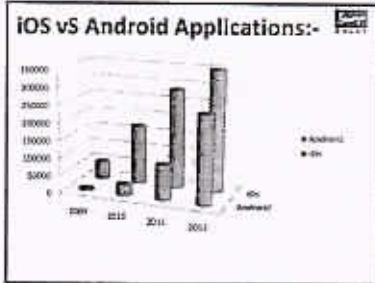

- > Other than Android there are several other mobile operating system which is used.
- > Symbian, IOS, windows this are one of the most used mobile operating systems.

 - ✓ Virtual buttons in the UI.
 - ✓ A new typeface family for the UI.
 - ✓ Ability to shut down apps that are using data in the background.
- **Android JellyBean 4.1**
 - ✓ Released on June 22, 2012.
 - ✓ Latest version of Android.
 - ✓ Smoother user interface.

LIMITATIONS:-

- Making source code available to everyone inevitably invites the attention of hackers.
- Android operating system uses more amount of battery as compared to normal mobile phones.
- As there are so many user sometimes it becomes difficult to connect all the users.
- As we call Android is world of applications we continuously need to connected with the Internet which is not possible for all the users.

CONCLUSION AND FUTURE SCOPE:-

- Android is now stepping up in next level of mobile Internet.
- There are chances of Android Mobile sales becomes more than iPhone in next two years.
- Google may launch another version of android that starts K because Google is launching all the android versions in the alphabetical order.
- There are chances of Android may become the widely used operating system in world.

Report on Guest Lecture on “Android Development”

Date: 22-02-2017

A guest lecture was organized by Department of Computer Application for the students of BCA – II Yr, BCA - III Yr and M.SC (CS) in SRC auditorium of Shri Ram College on 18-02-2017. This guest lecture aims to acquaint students with the technical advancement and application development in android. Participants in this workshop and showed their curiosity in learning current technology.

This session was conducted by Mr. Sachin Kumar from CETPA Infotech (P) Ltd. The guest lecture was scheduled to start at 10.00 am. The lecture started with introduction and covered the following aspects:

- [I] Android Architecture
- [II] Applications Development

The first session was conducted by Mr. Sachin Kumar and he discussed about the android architecture which are essentials for the understanding of Android OS. He also practically demonstrated some examples of object creation, encapsulation, inheritance and abstraction. Thereafter he emphasized on the constraints of the mobile application as compared to the desktop application like orientation, processing power, Events calls, platform versions, testing parameters etc.

Mr. Sachin Kumar also explained IDE for developing the Android application with the help of a small application. Students interacted with the resource person and resolved their queries. It was an informative session where students acquired knowledge on Android which helped them understand the subject in a new perspective.

A demonstration on “Android” was organized with the aim of introducing students to the career opportunities in the field of developing apps and gaming through android.

कार्यशाला का संचालन APTRON, NOIDA के द्वारा किया गया। APTRON, NOIDA मोबाइल एप्लीकेशन डेवलपमेंट, रोबोटिक्स और नेटवर्किंग के क्षेत्र में प्रशिक्षण प्रदान करने वाली अग्रणी कम्पनी है। कार्यशाला को दो चरणों में आयोजित किया गया। प्रथम चरण में विकास और जितेन्द्र जयसवाल ने प्रतिभागियों को एंड्रॉयड ऑपरेटिंग सिस्टम और एंड्रॉयड एप्लीकेशन के बारे में विस्तारपूर्वक बताया। द्वितीय चरण में श्री उमेश चन्द्रा ने प्रतिभागियों को एंड्रॉयड एप्लीकेशन बनाने के गुर सिखाये।

इस कार्यशाला में एमसीए व एमएससी कम्प्यूटर साइंस के 70 प्रतिभागियों ने भाग लिया। कार्यशाला के अन्त में कार्यशाला से सम्बन्धित प्रश्नोत्तरी का आयोजन किया गया और प्रतिभागियों को प्रशस्ति पत्र देकर सम्मानित किया

गया। प्रतिभागी प्रशांत कुमार के अनुसार कार्यशाला को बहुपयोगी बताया गया तथा कार्यशाला के आयोजन पर आयोजकों को धन्यवाद दिया।

इस अवसर पर श्रीराम कॉलेज के अधिशासी निदेशक डा. बी.के. त्यागी, निदेशक डा. टी.एस. रावत व विभागाध्यक्ष निशांत राठी ने तकनीकियों की महत्ता से छात्रों को अवगत कराया तथा उनके उज्ज्वल भविष्य को कामना की। अन्य मुख्य व्यक्तियों में नीतिन त्यागी, डा. प्रमोद शर्मा व संकाय सदस्य नीतू सिंह, सुमन यादव, शालू चौधरी, प्रवीण कुमार, अमित त्यागी, संजयकान्त त्यागी, अमित कुमार, मौ. युसूफ, मानसी सिंह, विनिता श्रीवास्तव, आकाश वर्मा, मनोज पुण्डीर, हंस कुमार एवं प्रमोद कुमार आदि मौजूद रहे।

श्रीराम कॉलेज में कार्यशाला का आयोजन

कॉलेज के निदेशक डा. आरएससक्सैना एवं संकाय के डीन निशान्त राठी द्वारा वक्ता एवं विषय से छात्र-छात्राओं को अवगत कराने से हुआ। मुख्य वक्ता हिमांशु सैनी ने छात्र-छात्राओं को आईटी, साइबर सिक्योरिटी, क्लाउड कम्प्यूटिंग एवं इंटरनेट ऑफ थिंग्स में होने वाले नये-नये अविष्कारों से अवगत कराया।

आईटी के बारे में बताते हुए उन्होंने कहा कि आज हमारे दैनिक जीवन में किस प्रकार आईटी का महत्वपूर्ण योगदान है। किस प्रकार सामान्य तकनीक से लेकर आर्टिफिशल इंटेलिजेन्स, रोबोटिक्स, मशीन लर्निंग, वर्चुअल रियलटी आदि हमारे लिए उपयोगी साबित हो रही हैं। क्लाउड कम्प्यूटिंग के बारे में जानकारी देते हुए बताया कि यह एक

इंटरनेट आधारित प्रक्रिया है। गूगल एप्स क्लाउड कम्प्यूटिंग का एक उदाहरण है जो ऑनलाइन बिजनेस ऐप्लीकेशन मुहैया कराता है और वेब ब्राउजर का इस्तेमाल कर इस तक पहुँचा जा सकता है। ई-मेल आधारित सेवाएँ जैसे जॉमेल, हॉटमेल, याहू आदि भी क्लाउड कम्प्यूटिंग के अच्छे उदाहरण हैं। इस कार्यशाला में भाग लेने वालों में मुख्य रूप से निशान्त राठी, डीन, कम्प्यूटर ऐप्लीकेशन, नीतू सिंह, संजय कान्त, अमित त्यागी, नितिन त्यागी, प्रवीण कुमार, श्रीकान्त सिंह, प्रमोद कुमार, विनिता श्रीवास्तव, मानसी सिंह, निकिता कौशिक, भवनेश कुमार, हिमांशु होरा, सिद्धान्त गर्ग, अंकुर कुमार, अमित राणा, अमित कुमार, हंस कुमार, मनोज पुण्डीर, सुनील चौहान आदि उपस्थित रहे।

Report on Guest Lecture on "CLOUD COMPUTING"

Dated: 15.12.2015

Department of Computer Application, Shri Ram College, Muzaffarnagar organized a guest lecture for BCA 2nd, BCA 3rd years and M.Sc. (CS) students on December 11, 2015. Faculty members and One Twenty Four students participated in this guest lecture.

The resource person of this guest lecture was Mr. Anil Kumar, Derwent Technologies, Noida. The purpose of this lecture was to impart knowledge about Cloud Computing and its advantages.

Dr. D.S Rawat, Principal, Shri Ram College has formally inaugurated the workshop and encourages the students to prepare themselves in current trending technology.

Dr. Nishant Kumar Rathi, Dean, Dept. of Computer Application welcomed the key note speaker Mr. Anil Kumar and delivered his opening remarks and suggested the students to gain more knowledge on Cloud Computing.

Mr. Anil Kumar started the lecture with an overview of this new advanced technology in this era and covered the concepts of the cloud services like Information as a service (IaaS), Software as a service (SaaS), and Platform as a service (PaaS). He also explained how to multiple Virtual Machines (VM) run on a single physical machine and its advantages. He emphasized on practical aspects on how to build personal Cloud Computing data center.

At the end of the session, Dr. Nishant Kumar Rathi thanked Mr. Anil Kumar for sharing his valuable knowledge on this relevant topic so effectively. The feedback from the students was extremely positive.

Cloud Computing

- Cloud Computing is a general term used to describe a new class of network based computing that takes place over the internet.
 - Essentially a step on from Utility Computing
 - a collection/group of integrated and networked hardware, software and internet infrastructure (called a platform)
 - Using the internet for communications and transport provides hardware, software and networking services to clients
- These platforms hide the complexity and details of the underlying infrastructure from users and applications by providing very simple graphical interface or API (Application Programming Interface).

- In addition, the platform provides on demand services, that are always on, anywhere, anytime and any place.
 - scale up and down in capacity and functionalities
- Pay for use and as needed, elastic
- The hardware and software services are available to
 - general public, enterprises, corporations and business markets

- Cloud computing is an umbrella term used to refer to internet based development and services
- A number of characteristics define cloud data, applications services and infrastructure:
 - Remotely Accessed:** Services or data are hosted on remote infrastructure.
 - Ubiquitous:** Services or data are available from anywhere.
 - Commodified:** The result is a utility computing model similar to traditional that of traditional utilities, like gas and electricity - you pay for what you would want!

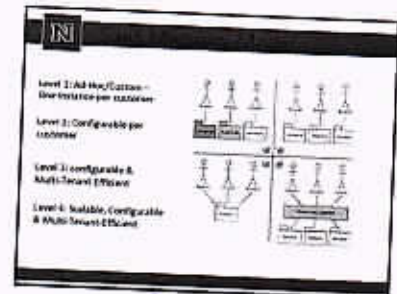

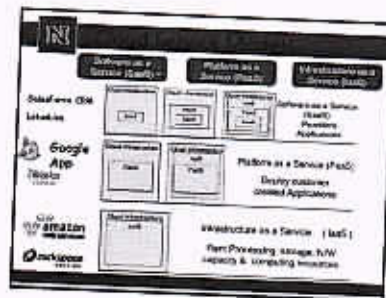

Common Characteristics:

Multiple Users	Resilient Computing
Homogeneity	Geographic Distribution
Virtualization	Service Orientation
Low Cost Software	Advanced Security

Essential Characteristics:

On Demand Self-Service	
Broad Network Access	High Elasticity
Rapid Pooling	Measured Service

Application Service (SaaS)	MS Live/Exchange/Office, IBM, Google Apps, Salesforce.com, Quicken Online, Zoho, Cisco
Application Platform	Google App Engine, Heroku, Force.com, Engine Yard, Facebook, Heroku, AWS
Server Platform	3Tera, EC2, Slicehost, GoDaddy, RightScale, Linode
Storage Platform	Amazon S3, Dell, Apple

	Services	Description
Application Focused	Software	Product, service, managed application, etc. (e.g., Gmail, Google Maps, etc.)
	Development Platform	Application - Open source software and software tools for building applications (e.g., Ruby on Rails, etc.)
Infrastructure Focused	Platform	Application - Open source software and software tools for building applications (e.g., Ruby on Rails, etc.)
	Storage	Application - Open source software and software tools for building applications (e.g., Ruby on Rails, etc.)
	Hosting	Application - Open source software and software tools for building applications (e.g., Ruby on Rails, etc.)

- The "no-need-to-know" in terms of the underlying details of infrastructure, applications interface with the infrastructure via the APIs.
- The "flexibility and elasticity" allows these systems to scale up and down as well
 - utilizing the resources of all kinds
 - CPU, storage, server capacity, load balancing, and database
- The "pay as much as used and needed" type of utility computing and the "always on, anywhere and any place" type of network-based computing.

- Cloud are transparent to users and applications, they can be built in multiple ways
 - branded products, proprietary open source, hardware or software, or just off-the-shelf PCs.
- In general, they are built on clusters of PC servers and off-the-shelf components plus Open Source software combined with in-house applications and/or system software.

- SaaS is a model of software deployment where an application is hosted as a service provided to customers across the internet.
- SaaS alleviates the burden of software maintenance/support
 - but users relinquish control over software versions and requirements.
- Terms that are used in this sphere include
 - Platform as a Service (PaaS) and
 - Infrastructure as a Service (IaaS)

- Virtual workspaces:
 - As an abstract notion of an execution environment that can be made dynamically available to authorized clients by using well defined protocols.
 - Resource pools (e.g. CPU, memory, disks).
 - Software configuration (e.g. OS, provided services).
- Implement an Virtual Machine (VM):
 - Abstraction of a physical host machine.
 - Hypervisor or hypervisor and enables restriction from VMs, and allows management of VMs.
 - VMWare, Xen, etc.
- Provide Infrastructure API:
 - Plug into hardware/support stack layers

- Advantages of virtual machines:
 - Run operating systems where the physical hardware is unavailable.
 - Easier to create new machines, backup machines, etc.
 - Software testing using "clean" installs of operating systems and software.
 - Emulate more machines than are physically available.
 - Timely (lightly loaded systems on one host).
 - Debug problems (suspend and resume the problem machines).
 - Easy migration of virtual machines (shutdown needed or not).
 - Run legacy systems!

- Cloud computing enables companies and applications, which are system infrastructure dependent, to be infrastructure-less.
- By using the Cloud infrastructure on "pay as used and on demand", all of us can save in capital and operational investment!
- Clients can:
 - Put their data on the platform instead of on their own desktop PCs and/or on their own servers.
 - They can put their applications on the cloud and use the servers within the cloud to do processing and data manipulations etc.

INI

- Why is it becoming a Big Deal:
 - Using high-scale/low-cost providers,
 - Any time/place access via web browser,
 - Rapid scalability; incremental cost and load sharing,
 - Can forget need to focus on local IT.
- Concerns:
 - Performance, reliability, and SLAs,
 - Control of data, and service parameters,
 - Application features and choices,
 - Interaction between Cloud providers,
 - No Standard API - mix of SOAP and REST!
 - Privacy, security, compliance, trust...

INI **Future Commercial Cloud Offerings**

INI **CLOUD TAXONOMY**

INI

- Several large Web companies are now exploiting the fact that they have data storage capacity that can be hired out to others.
 - allows data stored remotely to be temporarily cached on desktop computers, mobile phones or other Internet-linked devices.
- Amazon's Elastic Compute Cloud (EC2) and Simple Storage Solution (S3) are well known examples
 - Mechanical Turk

INI

- Unlimited Storage.
- Pay for what you use:
 - \$0.20 per GByte of data transferred,
 - \$0.15 per GByte-Month for storage used,
 - Second Life Update:
 - 3TBites, 40,000 downloads in 24 hours - \$200,

INI

- Amazon Elastic Compute Cloud (EC2):
 - Elastic, scalable 1 to 100+ PCs via Web,
 - Machine-Specific,
 - Fairly cheap!
- Powered by Xen - a Virtual Machine:
 - Different Operating Systems and VMs as one "one virtualization" where the guest OS is modified to use special hyper-calls
 - Hardware controllers by Intel (VT-x/VMX) and AMD (AMD-V)
 - Supports "Live Migration" of a virtual machine between hosts.
- Linux, Windows, OpenSolaris
- Management Console/API

INI

- Load your image onto S3 and register it.
- Boot your image from the Web Service.
- Open up required ports for your image.
- Connect to your image through SSH.
- Execute you application...

INI

- The use of the cloud provides a number of opportunities:
 - It enables services to be used without any understanding of their Infrastructure
 - Cloud computing works using economies of scale:
 - It potentially lowers the unitary expense for start-up companies, as they would no longer need to buy their own software or servers,
 - Cost would be by on-demand pricing,
 - Servers and Service providers claim costs by establishing an ongoing revenue stream.
 - Data and services are stored remotely but accessible from "anywhere".

INI

- In parallel there has been backlash against cloud computing:
 - One of cloud computing means dependence on others and that could possibly limit flexibility and innovation.
 - The other one likely because the major internet companies like Google and IBM, who may monopolize the market.
 - Some argue that the use of supercomputers in return to the cost of maintaining computing that the PC was a random agent.
 - Security could prove to be a big issue
 - It is still unclear how safe we should feel it is and when using these services sometimes of slow is not always clear.
 - There are also issues relating to policy and access:
 - If your data is stored abroad where policy differs where is it?
 - What happens if the remote server goes down?
 - How will you then access it?
 - There have been cases of users being locked out of accounts and losing access to data.

IN

- **Lower computer costs:**
 - You do not need a high-powered and high-priced computer to run cloud computing's web-based applications.
 - Since applications run in the cloud, not on the desktop PC, your desktop PC does not need the processing power or hard disk space demanded by traditional desktop software.
 - When you are using web-based applications, your PC can be less expensive, with a smaller hard disk, less memory, more efficient processor.
 - In fact, your PC in this scenario does not even need a CD or DVD drive, as no software programs have to be loaded and no document files need to be saved.

IN

- **Improved performance:**
 - With few large programs hogging your computer's memory, you will see better performance from your PC.
 - Computers in a cloud-computing system boot and run faster because they have fewer programs and processes loaded into memory.
- **Reduced software costs:**
 - Instead of purchasing expensive software applications, you can get most of what you need for free (at least most computing applications today, such as the Google Docs suite).
 - Better than paying for similar commercial software.
 - Which alone may be sufficient for fulfilling in-school education.

IN

- **Instant software updates:**
 - Another advantage to cloud computing is that you are no longer faced with choosing between obsolete software and high upgrade costs.
 - When the application is web-based, updates happen automatically whenever the software you log into the cloud.
 - When you access a web-based application, you get the latest version without needing to pay for or download an update.
- **Improved document format compatibility:**
 - You do not have to worry about the documents you create on your machine being compatible with other users' applications or files.
 - There are potentially no (or few) incompatibilities when everyone is sharing documents and applications in the cloud.

IN

- **Unlimited storage capacity:**
 - Cloud computing offers virtually limitless storage.
 - Your computer's current 1 Tbyte hard drive is small compared to the hundreds of Tbytes available in the cloud.
- **Increased data reliability:**
 - Unlike desktop computing, in which if a hard disk crashes and destroys all your valuable data, a computer crashing in the cloud should not affect the storage of your data.
 - If your personal computer crashes, all your data is still out there in the cloud, still accessible.
 - In a world where few individual desktop PC users back up their data on a regular basis, cloud computing is a data-

IN

- **Universal document access:**
 - That is not a problem with cloud computing, because you do not take your documents with you.
 - Instead, they stay in the cloud, and you can access them whenever you have a computer and an Internet connection.
 - Documents are instantly available from wherever you are.
- **Latest version availability:**
 - When you edit a document at home, that edited version is what you see when you access the document at work.
 - The cloud always hosts the latest version of your documents.
 - As long as you're connected, you can be in charge of having your latest

IN

- **Easier group collaboration:**
 - Storing documents leads directly to better collaboration.
 - Many users do this as it is an important advantage of cloud computing.
 - Multiple users can collaborate easily on documents and projects.
- **Device independence:**
 - You are no longer tethered to a single computer or network.
 - Changes to computers, applications and documents follow you through the cloud.
 - Move to a portable device, and your applications and documents are still available.

IN

- **Requires a constant Internet connection:**
 - Cloud computing is impossible if you cannot connect to the Internet.
 - Since you use the Internet to connect to both your applications and documents, if you do not have an Internet connection you cannot access anything, even your own documents.
 - A dead Internet connection means no work and in areas where Internet connections are few or inherently unreliable, this could be a deal-breaker.

IN

- **Does not work well with low-speed connections:**
 - Similarly, a low-speed Internet connection, such as that found with dial-up services, makes cloud computing painful at best and often impossible.
 - Web-based applications require a lot of bandwidth to download, as do large documents.
- **Features might be limited:**
 - This situation is bound to change, but today many web-based applications simply are not as full-featured as their desktop-based applications.
 - For example, you can do a lot more with Microsoft PowerPoint than with Google Presentation's web-based offering.

IN

- **Stored data might not be secure:**
 - With cloud computing, all your data is stored on the cloud.
 - The question is how secure is the cloud?
 - Can unauthorized users gain access to your confidential data?
- **Stored data can be lost:**
 - Theoretically, data stored in the cloud is safe, replicated across multiple machines.
 - But on the off chance that your data goes missing, you have no physical or local backup.
 - Are simply relying on the cloud just you at risk if the cloud lets you down?

Report on Workshop on “Python and Machine Learning”

Date: 03-02-2020

A One day workshop was organized by the Department of Computer Application, Shri Ram College at SRC Auditorium hall on January 31, 2020 at 10.30 AM. The workshop started with Saraswati vandana. Students of BCA 2nd year, BCA 3rd years and M.Sc(CS) of computer application participated in this workshop. Participants in this workshop showed their curiosity in learning current technology.

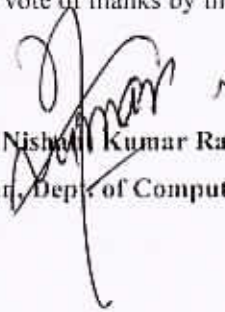

Dr. Aditya Guatam, Director of SRC presented the bouquet of flowers to the guests and welcomed the participants. He described the coverage areas in the workshop and the activities of Shri Ram College of increasing awareness about the new technologies.

Dr. Nishant Kumar Rathi, Dean, Computer Application has insisted the student to grab more knowledge on python and machine learning to make effective utilization of this workshop. The motive of this workshop was to explore the power and simplicity of Python & Machine Learning.

This session was conducted by Mr. Shubham Kumar, Code Development Centre, Noida. He conducted the workshop in theory and practical sessions to impart the knowledge of Python & Data Analytics. He presented the introduction to Python and compared Python to other programming languages. He covered the following topics in the workshop.

- What is python?
- Applications of python (web applications, web frameworks, GUI based desktop applications etc.)
- Data types in python with programs.
- Loops & conditions in python with programs.
- Exception Handling
- Applications of Machine Learning and Data Science

This workshop was appreciated by all the students as they were able to add another programming language in their technical skill set. The workshop was of great success and collected the feedback from the participants. The workshop came to an end with the vote of thanks by the Dr. Nishant Kumar Rathi, Dean, Dep't. of Computer Application.

Dear Mr. Shubham

We would like to take this opportunity to thank you for conducting the workshop on 'Machine Learning' organized by Faculty of Computer Application on 31-01-2020. The workshop was a success and was appreciated by the participating students and faculty members.

The program which was intended for the staff and students of the department was attended by 20 faculty members and over 100 students. The objective of workshop, was to make students aware of AI and Machine learning with Python. The participants were significantly benefited by the workshop. The College and department appreciates your time and dedicated effort for conducting the workshop.

With Thanks and Regards,

कम्प्यूटर लैंग्वेज पायथन व मशीन लर्निंग हुई कार्यशाला

● जनवाणी संवाददाता, मुजफ्फरनगर

श्रीराम कॉलेज के कम्प्यूटर संकाय में शनिवार को कम्प्यूटर लैंग्वेज पायथन व मशीन लर्निंग पर कार्यशाला का आयोजन किया गया। कार्यशाला के मुख्य अतिथि एवं वक्ता शुभम कुमार, कोड डवलपमेंट सेंटर, नोएडा विशिष्ठ अतिथि रहें।

उन्होंने बताया कि जो एप्लीकेशन पुरानी लैंग्वेज द्वारा अधिक परिश्रम करके काफी समय में विकसित की जाती थी आज पायथन की सहायता से वही एप्लीकेशन अल्प समय में तैयार की जा सकती है। इसके पश्चात शुभम कुमार ने जैंगो तकनीक से छात्रों को अवगत कराया तथा इस तकनीक का उपयोग करके एप्लीकेशन बनाकर दिखाया। उन्होंने बताया कि पायथन की मदद से वेब, मशीन लर्निंग डेटा साइंस व आर्टिफिशियल इंटेलिजेंस से सम्बन्धित एप्लीकेशन

आसानी से तैयार की जा सकती है।

मुख्य अतिथि ने बताया कि आने वाले समय में पायथन व मशीन लर्निंग तेजी से उभरती हुई तकनीक है। जिसके लिये विद्यार्थियों को अपने आपको तैयार करना चाहिए। आने वाले समय में इस तकनीक में

अनेक रोजगार उपलब्ध होंगे। उन्होंने कहा कि श्रीराम ग्रुप ऑफ कॉलेज जैसे उच्च गुणवत्ता वाले संस्थान से जुड़कर उन्हे गर्व महसूस हो रहा है और भविष्य में भी ऐसी कार्यशाला आयोजित कराते रहेंगे।

कम्प्यूटर संकाय के डीन निशांत राठी ने

मुख्य अतिथि का धन्यवाद करते हुये विद्यार्थियों को कार्यशाला की उपयोगिता का उल्लेख किया। अन्त में श्रीराम कॉलेज के निदेशक डा आदित्य गौतम ने अतिथियों को प्रतीक चिन्ह देकर सम्मानित किया।

इस कार्यशाला में भाग लेने वालों में मुख्य रूप से निशान्त राठी, डीन, कम्प्यूटर एप्लीकेशन एवं नीतू सिंह,

संजय कान्त, अमित त्यागी, नीतिन त्यागी, प्रवीण कुमार, श्रीकांत सिंह, प्रमोद कुमार, हिमाशु होरा, सिद्धांत गर्ग, अंकुर कुमार, योगेन्द्र कुमार, श्रीलापारिक विनित कुमार, अनुज कुमार, हंस कुमार, मनोज पुण्डीर, आदि रहे।

Report on four days Workshop on

“DEVELOPMENTS IN COMPUTER TECNOLOGY”

Date: 23.10.2019

Four days workshop on **DEVELOPMENTS IN COMPUTER TECHNOLOGY** was organized by the Department of Computer Application from 17 October 2019 to 20 October 2019 in the auditorium of Shri Ram College. The objective of this workshop was to explore the power and simplicity of python language, Artificial Intelligence, Machine language and Internet of Things.

Mr. Ankur Aggarwal, SDCMS, Muzaffarnagar, Mrs. Neetu Singh, Shri Ram College, Muzaffarnagar, Dr. Pramod kumar, Shri Ram College, Muzaffarnagar & Dr. Amit Tyagi, Shri Ram College, Muzaffarnagar were the resource persons in the workshop and they conducted the workshop in theory and practical sessions.

Day-1 (17.10.2019) **IoT:**

The first day of the workshop covered introductory topics such as basic information about IoT- What is IoT?, How IoT works?, IoT Applications, challenges of IoT, Advantage and disadvantage etc. with their practical session. The resource person of this session was Mr. Ankur Aggarwal.

Day-2 (18.10.2019) **Machine Learning:**

On the second day of the workshop an introduction on Machine Learning and its applications was covered. After that the basic concepts and applications of Neural Networks were covered by Mrs. Neetu Singh.

Day-3 (19.10.2019) **Artificial Intelligence:**

On the third day, the resource person Dr. Pramod Kumar delivered his presentation to impart the knowledge about Artificial Intelligence. He emphasized on the three pillars of the fourth industrial revolution AI, ML and Data Science. ML is an application of AI which allows computers to automatically learn from data without being explicitly programmed. He also provided the knowledge of:

- Tools of AI
- Search and optimization
- Logic
- Neural networks
- Applications
- Advantages and disadvantages

Day-4 (20.10.2019) **Python:**

Last day of workshop was divided into two sessions. In the first session basic topics were covered such as basic data types and variables, arithmetic operations, strings and operation of strings, data structures. Second session was covered conditional statements, loops, control flow and pattern printing.

Report on Workshop on "Computer Hardware"

Dated: 20.10.2018

Workshop on "Computer Hardware" was conducted by Department of Computer Application on October 13, 2018 in Computer Lab to impart knowledge about Computer Hardware & Networking and its functionality among students. The resource persons of this workshop were Mr. Nitin Kumar, Assistant Professor, Dept. of Computer Application, SRC and Mr. Manoj Kumar, Network Administrator, SRC.

The workshop was divided into the theory and practical sessions. Mr. Nitin Kumar presented introduction to the computer hardware. Mr. Manoj Kumar and Mr. Hans Kumar provided the knowledge to assemble the computer components. They also focused on the importance and impact of right assembly of the computer system and explained the difference of speed between Core2Duo and Dual Core processors.

199 students have actively participated with a lot of zeal and enthusiasm. The practical work during the workshop was conducted in batches having twenty students in each batch. The students gained hands on experience by assembling the components themselves during the practical session.

Following topics were covered in the both sessions which were conducted by Mr. Nitin Kumar & Mr. Manoj Kumar:

1. Understanding the basics concepts and structure of computer hardware.
2. Identifying the existing configuration of computer and peripherals.
3. Troubleshooting and maintenance of PC.
4. CMOS settings.
5. Integrating the PC into LAN.
6. Installing / updating Antivirus software.

Workshop was concluded with thanks speech by Dr. Nishant Kumar Rathi, Dean, Dept. of Computer Application. The student appreciated the workshop as it helped them to know their computer system, its functioning and troubleshooting.

मुजफ्फरनगर। श्री राम कॉलेज के कम्प्यूटर संकाय में हार्डवेयर वर्कशॉप का शुभ आरम्भ किया गया। वर्कशॉप का उद्घाटन श्रीराम कॉलेज के अधिशासी निदेशक डा. बी.के. त्यागी एवं निदेशक डा. एम.एस. तोमर ने दीप प्रज्ज्वलित कर किया। बी.सी.ए. के विद्यार्थियों का मार्गदर्शन करते हुये उन्होंने कहा कि हमारे छात्र सॉफ्टवेयर में प्रवीणता हासिल किए हुए हैं। विश्वविद्यालय पाठ्यक्रम में हार्डवेयर शिक्षा का प्रावधान न होने के बावजूद छात्रों को इस क्षेत्र में शिक्षित करने के लिये कम्प्यूटर संकाय ने जो पहल की है उसके लिये डा. त्यागी व डा. तोमर ने कम्प्यूटर संकाय को बधाई दी, उन्होंने कहा कि जैसे शरीर को क्रियाशील बनाए रखने के लिये शरीर के विभिन्न अंगों की देखभाल जरूरी है, वैसे ही कम्प्यूटर

को दुरुस्त रखना पड़ता है। हार्डवेयर के ज्ञान से कोई भी व्यक्ति अपने कम्प्यूटर को सही देखरेख कर सकता है। कम्प्यूटर संकाय के विभागाध्यक्ष निशांत राठी ने छात्रों को सम्बोधित करते हुए कहा कि कम्प्यूटर संकाय ने हार्डवेयर शिक्षा की पहल कर विद्यार्थियों को पाठ्यक्रम से अतिरिक्त ज्ञान प्रदान करने का अनूठा प्रयोग किया है, इससे विद्यार्थियों को अपने कम्प्यूटर की संरचना को जानने में सहायता मिलेगी। कम्प्यूटर में कोई खराबी आने पर विद्यार्थी स्वयं ही समस्या का समाधान कर सकते हैं। हार्डवेयर इन्जीनिरिंग के क्षेत्र में भी असीम सम्भावनाये हैं। रोजगार के अवसर कॉर्पोरेट जगत एवं स्वरोजगार के रूप में उपलब्ध हैं। वर्कशॉप को मौखिक एवं प्रयोगात्मक भागों में विभाजित किया गया। व्याख्यान का

संचालन करत हुए। नितांत त्यागी ने कम्प्यूटर हार्डवेयर का परिचय कराया। प्रयोगात्मक का संचालन मनोज पुण्डीर व प्रमोद कुमार ने किया। विषय विशेषज्ञ हंस कुमार ने

आन्तरिक पार्टस का जानकारी दी। सभी पार्टस की कार्यप्रणाली को समझाते हुये एक सम्पूर्ण कम्प्यूटर सिस्टम बनाना सिखाया। कार्यशाला में नीतू सिंह, मोनिका गर्ग, विनिता

त्रिपाठय, प्रवीण कुमार, आनित त्यागी, विक्रान्त वर्मा, प्रमोद कुमार, संजय कान्त त्यागी, श्रीकान्त सिंह, सुमन यादव, दीप्ती अरोरा, आयुष त्यागी मौजूद रहे।

Report on Workshopon “Cyber Security”

Dated: 05-04-2019

A workshop was organized by the Department of Computer Application, Shri Ram College at SRC Auditorium on April 01, 2019 at 10.30 AM. Students of BCA 2nd year, BCA 3rd year and M.Sc. (CS) participated in this workshop.

Dr. Nishant Kumar Rathi, Dean, Computer Application welcomed the participants and presented the bouquet of flowers to the guests. He also described the coverage areas of the workshop. He insisted the students to grab more knowledge on Cyber Security during the workshop.

Mr. Nitin Kumar, Cyber Security Expert, Code Development Centre, Noida was the resource person of this workshop. He started with an overview of cyber security. He gave a powerful presentation on information security, threats and vulnerabilities. He also highlighted the challenges of information security. He recommended a cautious approach for all the citizens especially in the light of dangers posed by professional hackers and cyber attackers.

He quoted instances of credit card frauds, skimming frauds and the role of banks. He spoke about the need to strengthen the existing laws especially the provisions of I.T. Act to deal firmly with cyber offences. Questions fielded by participants were replied in an enthusiastic manner.

At the end of the session Dr. Nishant Kumar Rathi thanked Mr. Nitin Kumar for a wonderful session in short period of time.

असंतुलन, ग्रामीण और शहरी समीकरण, आर्थिक विषमताएँ और पंचवर्षीय योजनाएँ, अमीर और गरीब राज्यों व लैंगिक असमानता आदि रहे। कार्यक्रम का संचालन वाणिज्य विभाग की प्रवक्ता डा. जूही गौतम व निर्यात पंडित द्वारा किया गया। कार्यक्रम में लगभग 45 बच्चों ने विभिन्न धर्मों पर विचार रखे। कार्यक्रम का सफल बनाने में डा. रविन्द्र, डा. जूही गौतम, संजय शर्मा, मुकेश कुमार, निर्यात पंडित, रमिका वर्मा, शिवानी वंसल, शीरीन हुसैन आदि का योगदान रहा।

साइबर हमले के प्रति सजगता पर जोर दिया

मुजफ्फरनगर, १ अप्रैल (बुस.)। श्रीराम कॉलेज के कम्प्यूटर संकाय द्वारा साइबर सिक्वोरिटी पर कार्यशाला का आयोजन किया गया। कार्यशाला के प्रारम्भ में कोड डवलपमेंट सेंटर से आये साइबर सिक्वोरिटी एक्सपर्ट नितिन कुमार ने छात्रों को बताया कि साइबर सिक्वोरिटी डिजिटल हमलों से सिस्टम, नेटवर्क और प्रोग्राम की रक्षा करने का अभ्यास है। ये हमले सवेदनशील जानकारी तक पहुंचने, बदलने या नष्ट करने के उद्देश्य से होते हैं। साइबर सिक्वोरिटी से अलग

कराते हुये छात्रों को समझाया कि आज के आधुनिक युग में हमें अपने डेटा, प्रोग्राम, फाईल तथा नेटवर्क को किसी घुसपैठियों से बचाने की आवश्यकता होती है। उन्होंने बताया कि साइबर सिक्वोरिटी के साध-साध नेटवर्क, एप, डाटा, डेटाबेस, क्लाउड, मोबाइल आदि को भी घुसपैठियों से सुरक्षित करने की आवश्यकता है। साइबर सुरक्षा में खतरा इसलिये है, क्योंकि नेटवर्क कनेक्शन और इंटरनेट काफी तेजी से बदलता जा रहा है, इसी वजह से सुरक्षा काफी महत्वपूर्ण हो गयी है।

बदलती तकनीक की वजह से सुरक्षा एक चुनौती भरा काम हो गया है। साइबर धमकियों से बचने के लिये हमें हमारी जानकारी को सुरक्षित रखना काफी जरूरी है। साइबर सुरक्षा हमले कई प्रकार से किये जा सकते हैं, जैसे कि रेनसमवेयर वाइरस द्वारा लोगों के कम्प्यूटर और सिस्टमों में हमला किया जाता है व वहां पढ़ी फाइलों को नुकसान पहुंचाता है। अपराधी इस तरीके से किसी के खराब सिस्टम को रिश्वत लेकर छोड़ता है। मालवेयर द्वारा किसी फाइल या प्रोग्राम

को नुकसान पहुंचाया जाता है तथा फिशिंग कर लोगों को फ्रोड ई-मेल किये जाते हैं, जिसका मकसद जरूरी डाटा को चुराना होता है जैसे कि क्रेडिट कार्ड या लॉगिन जानकारी। उन्होंने बताया कि जिरा तरीके से साइबर खतरों की गति बढ़ती जा रही है, उसी तरह से लोगों को इन हमलों से बचाने के लिये हार्डवेयर और सॉफ्टवेयर की आवश्यकता भी बढ़ती जा रही है तथा आई टी प्रोफेशनल और कम्प्यूटर विशेषज्ञों के लिये लगभग १ मिलियन नौकरियां विश्वभर में खाली है।

विद्यार्थियों द्वारा इस क्षेत्र में एक सुरक्षित भविष्य बनाया जा सकता है। साइबर सुरक्षा के क्षेत्र में विद्यार्थी थीफ इन्फोर्मेशन सिक्वोरिटी ऑफिसर, सिक्वोरिटी इंजीनियर, सिक्वोरिटी ऑर्किटेक्ट एवं सिक्वोरिटी ऐनलिरस्ट जैसे पदों पर कार्य कर सकता है। कार्यक्रम के अन्त में विभागाध्यक्ष निशांत राठी द्वारा कोड डवलपमेंट सेंटर नोएडा से आये शुभम कुमार व नितिन कुमार को प्रतीक चिन्ह देकर सम्मानित किया गया। उन्होंने कहा कि अगामी सप्ताह में भी नई तकनी

की जानकारी के लिये विभाग द्वारा कार्यशाला का निरंतर आयोजन किया जायेगा। इस कार्यशाला में भाग लेने वालों में मुख्य रूप से निशांत राठी, डीन, कम्प्यूटर एप्लीकेशन एवं नीतू सिंह, संजय कान्त, अमित त्यागी, नितिन त्यागी, प्रवीण कुमार, श्रीकांत सिंह, प्रमोद कुमार, हिमांशु होरा, सिद्धांत गर्ग, अंकुश कुमार, अमित कुमार, अमित राठी, योगेन्द्र कुमार, नीरज प्रताप, सोनिया चौधरी, श्रीला पारिक, हंस कुमार, मनोज पुण्डरी, सुनील चौहान आदि उपस्थित थे।

Report on Webinar on Emerging Technology Trends in Digital India

Date: 11.05.2020

Department of Computer Application organized a webinar on Emerging Technology Trends in Digital India on May 08, 2020. Around 200 Faculty members and students from various colleges had attended the programme. Due to pandemic this programme was organized using online platform Zoom App at 11:00 am. During the inaugural session Dr. Nishant Kumar Rathi, Dean, Computer Application welcomed the participants and he has highlighted the importance of the Webinar and latest Technologies in India. Mr. Shubham Kumar, Code Development Centre, Noida and Mr. Nitin Pandit, TutorialsLink was the keynote speaker of the session.

This webinar was conducted into two sessions of 40 minutes each. Mr. Shubham Kumar conducted the first session and emphasized on the latest technologies which are beneficial in the process of Digital India.

The second session was conducted by Mr. Nitin Pandit where he emphasized on the practical aspects of emerging technologies.

The question answer round was conducted after each session where participants queried their doubts with the speakers.

This webinar was appreciated by the participants and turned out to be a great success. Certificates were given to the participants through email. The webinar came to an end with the vote of thanks by the Mrs. Nectu Singh, Asst. Professor, Deptt. of Computer Application.

Report on Workshop on "COMPUTR HARDWARE"

Dated: 19.10.2015

Department of Computer Application, Shri Ram College, Muzaffarnagar organized a workshop on "COMPUTER HARDWARE" on 16th October 2015. All the students of BCA-Ist year participated in this workshop in various batches of twenty students. The resource person of this workshop was **Mr. Manoj Kumar, Network Administrator, and Dept. of Computer Application.**

The objective of this workshop was to impart the knowledge of computer hardware and networking to the students as most of the students have no prior knowledge of the computer system and its functioning. **Mr. Manoj Kumar** demonstrated to assemble the computer system. He emphasized on installing / configuring the application program and troubleshooting the system related problems.

The workshop has covered both the theory and practical aspects in a well-balanced manner. All students actively participated with lots of zeal and enthusiasm.

Mr. Manoj Kumar covered the following topics in the theory and practical session.

1. Understanding the basics concepts and structure of computer hardware.
2. Identifying the existing configuration of computer and peripherals.
3. Troubleshooting and maintenance of PC.
4. CMOS settings.
5. Integrating the PC into LAN.
6. Managing the data back and restore operation on server.
7. Installing /Updating Antivirus software.

Workshop was concluded with interactive session between the students and resource person during which the students found solutions to their queries.

Dr. Nishant Kumar Rathi, Dean, Computer Application insisted the student to grab more knowledge on cloud computing also to make effective utilization of this workshop.

Mr. Nitin Pandit was the resource person of this workshop. He presented an overview on this technology. He also explained the concept of infrastructures of the cloud as IaaS, SaaS, PaaS and storage services. He demonstrated the concept of cloud in a practical session. He covered the following aspects of cloud computing:

- Email
- Storage, backup, and data retrieval
- Creating and testing apps
- Analyzing data
- Audio and video streaming
- Delivering software on demand

At the end of the session, Dr. Nishant Kumar Rathi thanked Mr. Nitin Pandit for delivering a wonderful session in short period of time.

की जरूरत नहीं होती है, इसलिए
क्लाउड लंबे समय में बहुत ही
किफायती साबित होता है। अगर
आपका सेप्टॉप या बिजनेस फोन खो
जाये तो आपका बिजनेस डाटा भी

उसके साथ नष्ट जाता है और वे
आपके लिए किसी पर्यकर त्रासदी से
काम नहीं होता। अगर आपका डाटा
वन ड्राइव या गुगल ड्राइव में स्टोर्ड है
तो आपको परेशान होने की जरूरत

नहीं है। यहाँ निम्नलिखित कर्मी, डा. बोकें

Report on Guest Lecture on “Networking”

Dated: 28-02-2019

A guest lecture was organized by the Department of Computer Application for students of BCA 2nd year, BCA 3rd years and M.Sc. (CS) of Computer Application in SRC auditorium of Shri Ram College on 23-02-2019. The purpose of this lecture was to educate the students for technical advancement in Computer Networking. Around Sixty eight students participated in this lecture.

The workshop started at 10:00 am. Dr. Prerna Mittal, Director, Shri Ram College, Muzaffarnagar formally inaugurated the lecture by presenting the bouquet of flowers to the guest and encouraged the students by her opening remarks. Dr. Nishant Kumar Rathi, Dean, Dept of Computer Application has insisted the students to grab more knowledge on Computer Networking and to make effective utilization of this lecture.

Mr. Shubham Kumar, Code Development Centre, Noida was the resource person of this lecture. He started with an overview of technologies in networking. He also discussed that networking technologies had been in existence for many decades with a singular purpose – the improvement of data transmission and circulation through the use of information systems. Mr. Shubham Kumar also introduced two new technologies of networking:

- 5G: It is the latest in mobile internet connectivity. It not only allows for greater speed, and a higher number of connected devices, but network slicing as well.
- Edge Computing: This is another networking technology that has the potential to improve operational efficiency in businesses and organizations. Edge computing is a consumer-focused technology that is used to optimize data collection and processing.

At the end of the session Dr. Nishant Kumar Rathi thanked Mr. Shubham Kumar for giving wonderful session in short period of time.

A Report On "Digital Film Making" Work Shop

A workshop on "Digital Film Making" named SFALTA was jointly organized by the Journalism and Mass Communication Department of Shri Ram College Muzaffarnagar and Gravity Realm Production House. In the workshop, Emerging Young Filmmaker and Director of Gravity Realm Production House gave Mr. Akhilesh Verma a detailed insight on the topic "Digital Film Making" to the students as keynote speakers.

The workshop was conducted in two phases. In the first phase, explaining the film production process to the students in detail, the importance of documentation in camera shots, camera angles as well as pre-production phase of film production was explained in detail. He told that it is very important to do paper work before doing any work. Contracting with the client or work contract with the production staff or any legal formalities are all very important part of pre-production in the first phase of the film production process, without which it can be risky to proceed in the film production process.

He explained in detail to the students about the film production in the second phase of the workshop. He said that the film is made up of a combination of frames, shots and scenes. Apart from this, he also gave information about the importance of camera aperture and shutter speed

while giving technical knowledge of the camera to the students. Talking about the camera aperture, he said that the aperture controls the light on the film through the lens and aperture is the yardstick of light entering the camera. He further explained that rotating the rings on the camera lens determines the aperture as required. He said that the second main part of the camera is the shutter. It is a mechanical system through which light enters the camera only when it is opened by pressing the shutter button. In the workshop, the keynote speaker explained the importance of his paperwork in an experimental way before making the film. On the occasion, he also taught the students about the importance of camera shots, camera angles, "three way" lights system and green screen chroma setup in photography and cinematography, and also shot a scene by the students.

Objective of the Workshop:

- To give practical knowledge of Digital Film production to the students
- Make them aware about all three process of Film production.
- To give them knowledge about camera techniques.

Outcomes of the event:

- Students got an in-depth knowledge about the techniques of digital film making and on the other hand, they also experimentally observed the advantages of the paper process during the production of the film. This experimental practical knowledge would help them in making a career in the commercial field of digital film making.

Report on Workshop on "CLOUD COMPUTING"

Date: 09-03-2019

A workshop was organized by the Department of Computer Application for the students of BCA 2nd and BCA 3rd year in SRC auditorium of Shri Ram College on 01-03-2019. The objective of this workshop was to impart the knowledge of cloud computing to the students. Around Sixty Eight students participated in this workshop.

Dr. R.S. Chauhan, Director, Shri Ram College, Muzaffarnagar inaugurated the workshop and encouraged the students to inculcate themselves in current technology of cloud computing. Dr. Nishant Kumar Rathi, Dean, Computer Application has insisted the student to grab more knowledge on cloud computing.

The resource person of this workshop was Mr. Tara Chand from Skill Sertifika. He presented an overview on this technology and explained the infrastructure of Cloud computing. He demonstrated the concept of cloud in a practical session. He described the application of Cloud Computing in education which helps students, teachers and administrators. A cloud based education platform also improves physical and digital access to resources. He also discussed the benefits and challenges of Cloud Computing in education.

As per discussion with the students, the information given about the Cloud Computing was appreciated. Most of the students and requested to arrange such talk in the future also. At the end of the session, Dr. Nishant Kumar Rathi thanked Mr. Sachin Tyagi for a wonderful session in short period of time.

Report on workshop on "COMPUTR HARDWARE"

Dated: 22.10.2016

Workshop on "**Computer Hardware**" was conducted by Department of Computer Application on 19.10.2016 in Computer Lab to impart knowledge about Computer Hardware & Networking and its functionality among students. The resource persons of this workshop were **Mr. Manoj Kumar, Network Administrator, Shri Ram College.**

The workshop was divided into the theory and practical sessions. **Mr. Manoj Kumar** presented introduction to the computer hardware and provided the knowledge to assemble the computer components. He also emphasis on the importance and impact of right assembly of the computer system and explained the importance of different components of computer system.

263 students have actively participated in the workshop with a lot of zeal and enthusiasm. The practical work during the workshop was conducted in batches having twenty students in each batch. The students gained hands on experience by assembling the components themselves during the practical session.

Session and Time: First Session: 10:00 A.M to 1.00 P.M.

Second session: 01.30 P.M to 4.30 P.M.

The objective of this workshop was to impart the basic knowledge and principles into the area of computer hardware.

Following topics was covered in this workshop in theory and practical session:

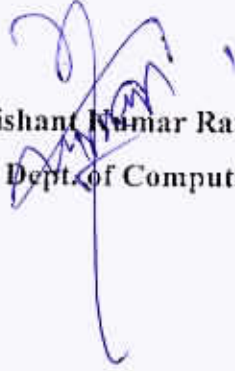

1. Introduction to Computer hardware
2. Basic Operations
3. Inside the CPU cabinet
4. Importance of Motherboard
5. Functioning of Processor

Department of Computer Applications organized a Workshop on “Android Application Development” in Association with Net camp Solutions Pvt. Ltd. Kolkata

The Department of Computer Application, Shri Ram College, Muzaffarnagar in association with Net camp Solutions Pvt. Ltd. Kolkata has organized a three days online workshop on “**Android Application Development** ” on 1st to 3rd March 2020 for the students of Computer Applications. 85 students are attended the workshop.

About the workshop

Most of hand-held devices today runs on the easily customizable and open source Operating System – **Android**. The three days Android Application Development workshop is designed to quickly get the students to speed with writing apps for Android devices. By the end of the course, students would be able to write simple GUI applications, use built-in widgets and components, work with the database to store data locally, and much more. The workshop on Android Application Development aimed to provide the participants with technical training on the concepts and programming methodologies needed to develop applications for mobile devices. Participants would learn to use different android libraries and will be able to develop their own android applications. Instruction is aided with hands on training which helped the students to grasp concepts of the complete mobile application development.

The major topics covered included- Basic Building blocks- Activities- Services- Broadcast Receivers- Content providers- UI Components- Views- Notifications – Components for communication- Intents & Intent Filters- Emulator-Android Virtual Device- Basic UI design- Basic UI design- Styles & Themes- Content Providers- SQLite Programming – Case study –Develop an App to demonstrate database usage.
