Objective of the Training:

General Knowledge/General Studies is one of the most common part used in the hiring process to enter either private sector or government sector. They are not a test of only current GK but also test the past and static GK; instead they assess your level of competency when working with social responsibilities and welfare of society. Although they may seem daunting, especially if you are not someone with an affinity for GK, there is plenty you can do to make sure that you perform well on these tests. Thus the objective of the training was to provide the basic knowledge required and demonstrating the understanding how one need to solve problems based on general knowledge while managing the time and without being stressed.

Number of students who participated:

Total 98 final year students of Dept. of computer application, Bio Science, Commerce, Business Administration, Teacher Education, Fine Arts and Journalism & Mass Communication participated in the event.
