Faculty Development Programme on Data Analysis and Management (08th January, 2018 to 15th January, 2018)

Introduction : Data has been the buzzword for ages now. Either the data being generated from large-scale enterprises or the data generated from an individual, each and every aspect of data needs to be analyzed to benefit yourself from it. But how do we do it? Well, that's where the term 'Data Analytics' comes in.

Data Analytics has a key role in improving your business as it is used to gather hidden insights, generate reports, perform market analysis, and improve business requirements.

What is the role of Data Analytics?

Gather Hidden Insights – Hidden insights from data are gathered and then analyzed with respect to business requirements.

Generate Reports – Reports are generated from the data and are passed on to the respective teams and individuals to deal with further actions for a high rise in business.

Perform Market Analysis – Market Analysis can be performed to understand the strengths and weaknesses of competitors.

Improve Business Requirement – Analysis of Data allows improving Business to customer requirements and experience.

Data Analytics refers to the techniques used to analyze data to enhance productivity and business gain. Data is extracted from various sources and is cleaned and categorized to analyze various behavioural patterns. The techniques and the tools used vary according to the organization or individual.

So, in short, if you understand your Business Administration and have the capability to perform Exploratory Data Analysis, to gather the required information, then you are good to go with a career in Data Analytics.

Report On Faculty development Programme

This faculty programme was based on Data Analysis and Management. In this programme eminent speakers were Dr. Aditya Gautam, Dr. Saurabh Mittal, Dr. Vinit Sharma and Dr. Pankaj Kumar.

This programme was covered in eight days. In this programme Dr. Aditya Gautam told that Data Analytics allows a teacher to measure, monitor, and respond, in real-time to a student's understanding of the material. This is an important development for teachers because it will strengthen our ability to address any unconscious biases we might have towards the engagement or performance of our students.
