Dated: 22.08.2019

To,

The Secretary
Shri Ram College,
Muzaffarnagar

Subject: Providing IR based Street Light Sensors.

Dear Sir,

This is with reference to our demonstration of IR Sensors based automation of street lights and subsequent discussions held. We assure you that more than 30 percent energy will be saved if the proposed device is installed in the Campus.

We are herewith quoting our minimum rates as following: -

- | | | | |
|----|---|----------|-----------------|
| 1. | IR Based Automatic Street Light Sensors | 100 Pcs. | @ Rs 248/- each |
|----|---|----------|-----------------|

Hope to have this valuable order from you

Thanking you,

Yours faithfully
Sangeet Grover

SCADA

STREET LIGHT AUTOMATION

TO,

*Shri Ram College
Muzaffarnagar*

SCADA Based Street Light Automations

The cost of SIM, 2.4 GHZ, 8dbi omnidirectional antenna, GPRS SYSTEM, Internet of things cloud-based server, ios application android application, and computer software. Line fault monitoring, time looping system, time schedule 10-15 loops system, real-time monitoring of electrical parameter, technical fault monitoring, upgraded 4G sim system, atmega 16 controllers, FR4 BOARD 1 mm thickness, sim 800c (FCC ID UDV201314) MODULE, 1-year complete storage data on cloud system (500 GB), google cloud, Front end Technology angular based, backen NORJS, EXUAL DATABASE, REST(PROYOICAL) SSL, AES120 8 bit encryption, atmega1284, Including operation.

Discription:

S/E of the microprocessor-based street light controller with digital timer switch daily programmed with stand by a lithium battery with back up of 6 years with min time between 2 switching operations is 1 mint, these pole power contractors 40A with coil voltage 220-230v AC with 1 no. AUX contact NO, TPN MCB 4 pole 40amp. (C-curve, 10ka) & Power wiring with single core PVC insulated FR cable 10 sq. mm and control wiring with PVC insulated FR cable 1 sq mm, 1 no. two-position selector switch to bypass timer and other accessories & petty material (din rail, 4 poles bakelite terminal strip 63A/440v AC, required nut bolts) should be fixed on bakelite sheet 6mm thick to be mounted in an ip54 surface flush-mounted powder coated sheet metal (1.60mm thick) cabinet having size 450mm x 600mm x 150mm to switch ' ON' all the 3 phases & switch 'OFF' 3 phases pre-fixed timings complete in all respect as per the satisfaction of Engineer-in-charge:-

Single-phase and Three-phase with SCADA street light controller 50 Amp load
PHMC Controller (GSM 900C), MNX 40, Power supply 12volt 2Amp, 40Amp MCB, 4 pole bakelite terminal

₹100/Day/Panel at mini 50 pieces for 2 years!

SCADA Protections

- SHORT CIRCUIT PROTECTION

- SURGE CURRENT PROTECTION

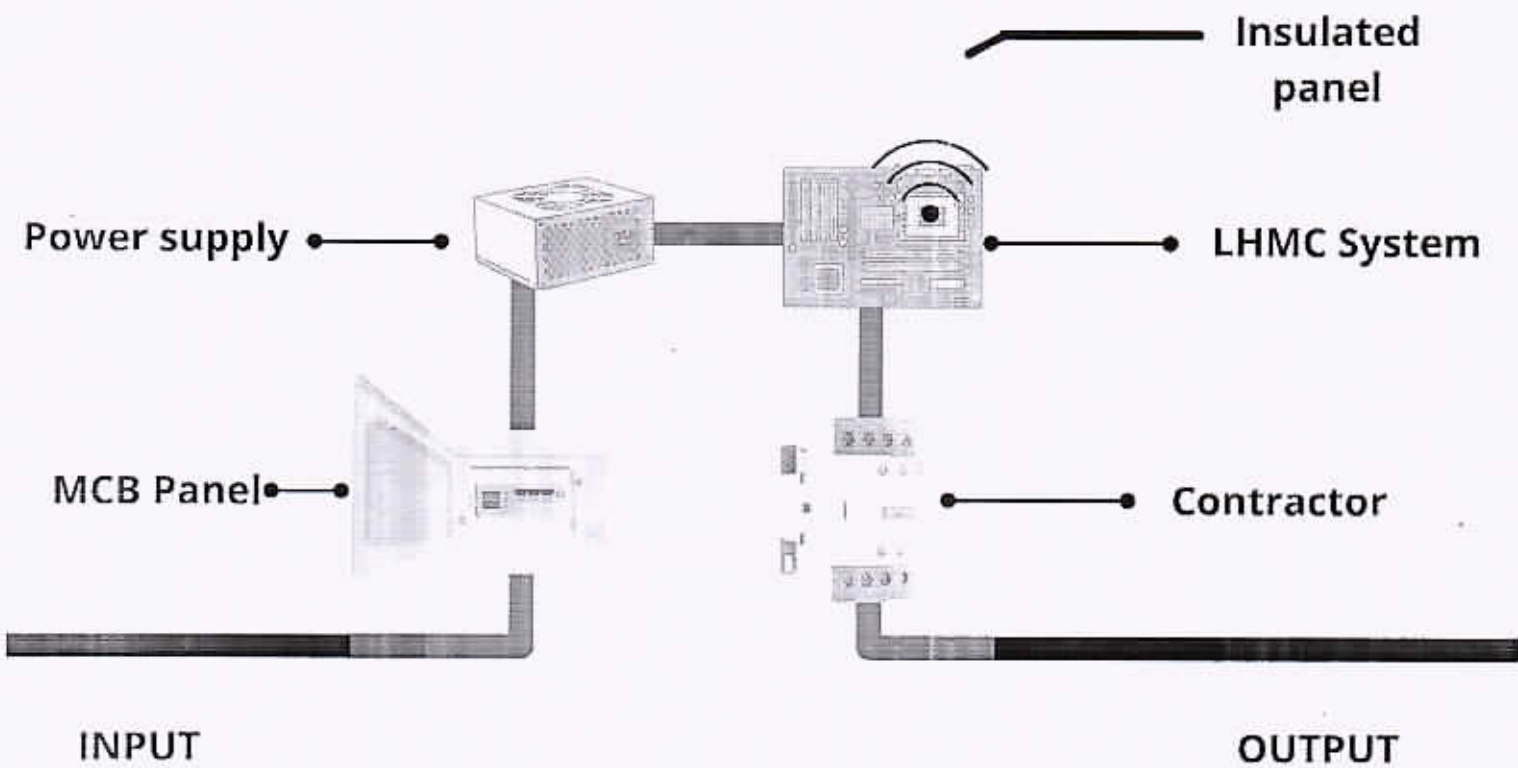

- HIGH VOLTAGE PROTECTION
- LOW VOLTAGE PROTECTION

- HIGH CURRENT PROTECTION
- LOW CURRENT PROTECTION
