2- Exchange of faculty and administrative/professional staff

It is the intention to establish a programme of exchange for faculty and administrative/professional staff. Details of exchanges will be worked out on an individual basis by representatives of the appropriate academic departments. The duration of these exchanges may be for one year, one semester or shorter periods as determined by mutual consent of the appropriate administrators at both institutions.

Subject to available funding, the two institutions will endeavour to provide office space, clerical help and access to libraries and other departmental and college facilities to visiting faculty as well as assistance in securing visas and housing accommodation on or near the campuses.

3- Exchange of Students

By mutual agreement, the two parties may implement several kinds of student exchange programmes: semester, full-year, and special short term courses of study focusing on the language and culture of the host institution.

The institutions taking part in the cooperation agree that only students with a proven record of success will be exchanged. The language pre-conditions are to be agreed upon between the respective partners.

4- Summer/Foundation Courses

Both parties may implement programmes of summer/foundation courses or summer activities for administrative/professional staff and students. Details will be worked out by representatives of the appropriate academic departments.

5- Individual and Joint Research Programmes

Both parties will examine the possibilities of cooperating in research programmes directed by individuals or by teams. This may involve exchange of staff or visits to share information and discuss project strategy. Each institution will endeavour to provide suitable facilities for research. Working programmes will be agreed for a period of two or three years, which may result in the publication of research findings at an international conference hosted by the two institutions.
