WORLD ENVIRONMENT DAY ACTIVITY REPORT

DATE: 05-06-2023

On 05-June-2023, Faculty of Bioscience organized "*WORLD ENVIRONMENT DAY*". The program was started with lamp lighting by Dr. S.C. Kulshrestha, Founder, Chairman of SRGC, Dr. Perna Mittal, Principal of Shri Ram College, Dr. Ashok Kumar, Director of Shri ram College and Dr. Vipin Kumar Saini, Head, Department of Bioscience.

Dr. S.C. Kulshrestha, Founder, Chairman of SRGC, delivered an opening speech highlighting the importance of environmental conservation and our collective responsibility in protecting the planet. He inspired the students with insights on current environmental issues and practical steps towards sustainability.

The Department of Biosciences organized a series of activities aimed at promoting environmental awareness and sustainable practices. The day's events began with a tree-planting ceremony on the college grounds, where students, faculty, and staff participated in planting various native tree species. This initiative not only beautified the campus but also underscored the importance of reforestation and biodiversity conservation. Following the tree-planting activity, a keynote address was delivered by an eminent environmentalist who highlighted the critical issues facing our planet, such as climate change, deforestation, and pollution. The speaker's insights and call to action inspired the audience to adopt more sustainable lifestyles and advocate for environmental protection. In addition to the intellectual engagements, a series of power point presentations were conducted throughout the day. These power point presentations covered practical topics such as composting, recycling, and organic gardening. Participants learned valuable skills that they could implement in their daily lives to reduce their ecological footprint. These power point presentations attracted many attendees, eager to learn how to turn kitchen waste into nutrient-rich soil.

A poster exhibition was also held, showcasing student research projects on various environmental issues. The posters highlighted innovative solutions and research findings on

topics ranging from plastic pollution to renewable energy technologies. Judges evaluated the presentations, and awards were given to the most impactful and well-researched projects. The posters were evaluated by a panel of judges comprising faculty members and external experts, who provided valuable feedback and selected the best presentations for awards. The day concluded with a valedictory function, where prizes were distributed to the winners of various competitions. The chief guest lauded the efforts of all participants and emphasized the importance of such events in nurturing scientific temper among students. The prize distribution ceremony was a moment of pride and joy, as students were recognized for their hard work, creativity, and innovative thinking. To further engage the college community, a clean-up drive was organized in the afternoon. Students and faculty members teamed up to clean the campus and surrounding areas, collecting litter and promoting the importance of a clean and healthy environment.

In the end, Dr. Vipin Kumar Saini thanked all members who attended and participated in today's celebrations. Your presence and active participation have made this World Environment Day truly special. Let us carry forward the knowledge and inspiration we have gained today and continue to work towards a greener, healthier planet. I am also grateful to the faculty members and staff who worked tirelessly behind the scenes to ensure the smooth running of today's events. Your hard work and dedication are deeply appreciated. DATE: 08 MARCH 2023

International Women's Day was celebrated on 8th March 2023 by the Bioscience Department. The event was organized to memorialize International Women's Day, a global observance that celebrates the social, economic, cultural, and political achievements of women while advocating for gender equality. On this occasion, about 50 females and 27 males including teaching staff and students actively participated. On this occasion, Dr. Ashok Kumar delivered a speech and said that it's a day whose aim is to promote and proclaim to the globe that all genders should be treated equally. The day's goal was to highlight many phases of a woman's life in a world dominated by men, after people's perspectives around the world, and influence the world positively. A woman is said to be a beautiful creation of God! It is a fact that all great personalities are born from the woman's womb and have taken their initial teachings from a woman.

Further Basic Science Head Dr. Pooja Tomar said that achieving gender equality and empowering all women and girls is very important to ensure inclusive and quality education for all as well as to promote lifelong learning. International Women's Day 2023 is an opportunity to transform this momentum into action, to empower women in all settings, rural and urban, and to celebrate the activists who are working relentlessly to claim women's rights and realize their full potential.

After that Assistant Professor Mr. Vikas Kumar Tyagi was told that it is the day for praising women who work hard every day to accomplish individual and professional goals. The role of women has changed tremendously and they have been able to create a positive impression in society. From housewives to CEOs, the transition can be seen at an accelerating rate.

Modernization and the advent of the latest technology have widened hope and opportunities for them. They have established themselves socially, politically, and economically in almost every field. Women are no longer considered unfit or weak for the military or other defense forces.

The event provided a platform for dialogue and collaboration among diverse stakeholders committed to gender equality, fostering a sense of solidarity and shared purpose. Participants

WORLD HEALTH DAY ACTIVITY REPORT

Dated- 07-Apr-2023

On 07.04.2023, the Department of Bioscience organized "World Health Day". The program was started with lamp lightning by Dr. Perna Mittal, Principal of Shri Ram College, Dr. Ashok Kumar, Director, Shri Ram College and Dr. Vipin Kumar Saini, Head, Department of Bioscience. On this day various competitions such as Poster making competition, Speech Competition, Power Point presentation was also conducted.

Dr. Ashok Kumar delivered an awareness speech on World Health Day. He told to the students that this special day is organized to spread awareness about both physical and mental health that can help them improve their lifestyle. "It is health that is the real wealth and not pieces of gold and silver". Health is wealth; if an individual is wealthy, but his health is poor, then he has no use for his wealth. To live a happy and good life, individuals should have good health. Keeping yourself fit and safe is important, with so many diseases prevailing in the world. World Health Day is "Health for All", which encompasses equal access for a good quality health service across all regions with limited or no financial risk.

On World Health Day, a health screening program was organized for staffs and students to check blood pressure, BMI measurements, glucose tests, and cholesterol screenings. This can help individuals become more aware of their health status and take necessary actions if needed. Fitness classes or outdoor activities such as yoga sessions, or sports tournaments were also arranged to promote physical activity and encourage a healthy lifestyle.

A awareness campaigns was run on campus through posters, social media, and other channels to educate the college community about important health issues and ways to prevent diseases.

At the end, Dr. Vipin Kumar Saini, Head, Department of Bioscience thanked all members, and he also said that Health is very critical in today's rising world. We need to make this day a moment for a healthier life to be understood. We neglect the importance of healthcare in our emphasis on work, eating, and sleep. People should concentrate on getting rid of unhealthy habits and behavior and shifts towards a healthier life.

WORLD HEART DAY ACTIVITY REPORT

DATE: 29 September 2022

On 29 September 2022, the Department of Bioscience organized World Heart Day. The program was inaugurated with lamp lighting by Dr. S.C. Kulshrestha Sir, Founder and Chairman, SRGC; Dr. Ashok Kumar Director, SRC, Dr. Purna Mittal, Principal, SRC, and Dr. Vipin Kumar Saini, HOD Bioscience.

World Heart Day is a global campaign organized annually on September 29th to raise awareness about cardiovascular diseases (CVD) and promote heart-healthy lifestyles. The primary objective of our World Heart Day activities was to educate individuals about the importance of heart health and encourage them to adopt healthy habits to prevent CVD.

The program started with a speech on World Heart Day by the honorable Chairman Sir to aware the students. He said that cardiovascular diseases are the most common cause of death globally. In the early 2000s, roughly 17 million people worldwide died from cardiovascular diseases annually.

He also said that the majority of these deaths were the result of coronary heart disease or stroke. Although cardiovascular diseases are often considered to be afflictions of people living in developed countries, where a sedentary lifestyle is common, more than 80 percent of deaths from these diseases occur in low- and middle-income developing countries.

After that, Dr. Ashok Kumar delivered a speech and said cardiovascular diseases claim millions of lives each year, but many are preventable through lifestyle changes. By eating healthy, staying active, and avoiding tobacco, we can protect our hearts and live longer, healthier lives. Let us raise awareness, encourage regular check-ups, and support each other in adopting heart-healthy habits. Together, we can make a difference and ensure that every heartbeat counts.

On this day various competitions were organized such as a Quiz competition, Debate competition, and Poster making competition. The students of B.Sc. Microbiology and B.Sc. Biotechnology participated in the competition.

Our World Heart Day activities were successful in raising awareness about cardiovascular health and empowering individuals to prioritize heart-healthy behaviors. By continuing to educate and support our community, we aim to reduce the burden of cardiovascular diseases and promote overall well-being.
