

Permission letter

To

The Director

SRC, Muzaffarnagar

Subject: Permission for conduct the one day Training on “Advanced Technology on Lilium Cultivation”.

I am writing this letter to allow for conducting the one day Training on “Advanced Technology on Lilium Cultivation” from 06/02/2024. This will be beneficial for students to boost their knowledge. Kindly approved us for the same.

I believe small steps will be useful for Agriculture students and this is one of them.

Thank you

“THE ROLE OF SPICES AND HERBS IN HEALTH AND HEALING”

Guest Lecture

Organized by Department of Home Science

Date: -10/10/2023

No. of Students: -90

Name of the Details of the Resource Person: -Dr. Shuchi Mittal S.D. (PG) College Muzaffarnagar.

Objective: To explain how certain spices and herbs contribute to preventive health, such as boosting immunity, reducing inflammation, and supporting digestive health.

Brief write-up about the program: -

On 10-10-2023, an insightful guest lecture titled “The Role of Spices and Herbs in Health and Healing” was presented by Dr. Shuchi Mittal. The lecture was organized to deepen participants’ understanding of how everyday herbs and spices offer health benefits beyond their culinary uses, drawing from both ancient practices and contemporary science. The session aimed to explore the

powerful health benefits of everyday herbs and spices, bridging traditional wisdom with modern scientific insights. Dr. Mittal began by tracing the historical significance of spices and herbs in various medicinal traditions, including Ayurveda and Traditional Chinese Medicine, emphasizing how civilizations worldwide have long valued these plants not only for flavor but also for their

therapeutic qualities. She illustrated the profound connection between culture and health, showing how many of the spices commonly used in kitchens today have ancient roots as natural remedies.

Dr. Mittal discussed several key spices and herbs, including turmeric, ginger, garlic, cinnamon, and peppermint, detailing their specific health benefits and active compounds. For example, she

highlighted curcumin in turmeric for its anti-inflammatory properties, gingerols in ginger for aiding digestion and reducing nausea, and allicin in garlic for cardiovascular health. Her explanations were backed by recent scientific studies, showing how these bioactive compounds help prevent chronic diseases, boost immunity, and support mental well-being. This evidence-based approach enabled the audience to understand both the traditional and contemporary roles of spices and herbs in health management.

The lecture concluded with practical guidance on incorporating spices and herbs safely and effectively into daily diets. Dr. Mittal provided tips on recommended dosages, preparation methods, and potential interactions with medications. She also discussed the importance of sustainable sourcing to protect biodiversity and ensure quality. Her engaging delivery and in-depth knowledge encouraged participants to think of their kitchens as natural apothecaries, inspiring them to harness the healing potential of spices and herbs in their wellness routines. The

session was both informative and inspiring, underscoring the powerful role of natural ingredients in promoting health and healing.

“ROLE OF HOME SCIENCE COMMUNITY DEVELOPMENT:EXTENSION EDUCATION, OUTREACH ACTIVITIES, AND COMMUNITY HEALTH.”

Guest Lecture

Organized by Department of Home Science.

Date: - 15/10/2023

No. of Students: -145

Name of the Details of the Resource Person: -Dr. Shweta Rathi Shri Ram College
Muzaffarnagar.

Objective:Discuss the role of Home Science in fostering sustainable practices, such as promoting eco-friendly technologies, waste management, and resource conservation in communities.

Brief write-up about the program: -On 10-10-2023, an insightful guest lecture presented by Dr. Shweta Rathi, emphasized the critical role of Home Science in community development, focusing on extension education, outreach activities, and community health. She highlighted that Home Science goes beyond managing the household; it equips individuals, especially women, with the skills and knowledge to improve their families' and communities' well-being. Through extension education, Home Science professionals empower communities with practical knowledge about nutrition, health, and sustainable living. Outreach activities extend this impact by involving local communities in workshops, awareness campaigns, and skill development programs. Dr. Rathi also stressed the importance of community health, noting how Home Science contributes to public health by promoting better hygiene practices, balanced nutrition, and disease prevention. Her insights underscored Home Science as a vital tool in fostering healthier, more self-reliant communities. She explained that Home Science serves as a bridge between academic knowledge and practical application, enabling communities to adopt healthier and more sustainable lifestyles. Through extension education, Home Science professionals provide targeted training and education to address local needs, such as nutrition, sanitation, and

Muzaffarnagar

resource management. Outreach activities, she mentioned, play a key role in engaging community members directly, facilitating hands-on learning, and fostering a sense of participation and responsibility. In the realm of community health, Dr. Rathie emphasized how Home Science promotes preventive care, proper nutrition, and home-based health practices that lead to improved overall well-being. Her presentation highlighted how Home Science is a cornerstone for empowering individuals and strengthening community resilience. She explained that Home Science professionals serve as change agents by providing knowledge and skills that address both immediate and long-term challenges within communities. Through extension education, they offer valuable training in areas such as nutrition, sustainable farming, and family management, which ultimately enhance the quality of life. Dr. Rathie also stressed the importance of outreach activities, which create opportunities for collaboration with local populations, allowing them to actively engage in learning and adopting new practices. Additionally, she pointed out how Home Science contributes to community health by promoting better nutrition, preventive healthcare, and the management of chronic diseases through lifestyle changes. Dr. Rathie concluded by emphasizing the importance of a holistic approach in fostering healthier, more resilient communities.

"GOVERNMENT PROGRAM AND POLICIES FOR ADOLESCENT"

Guest Lecture

Organized by Department of Home Science

Date: - 23/12/2023

No. of Students: -90

Name of the Details of the Resource Person: -Dr. Preeti Jain, Jain Kanya PG College Muzaffarnagar.

Objective: Improve the overall health of adolescents by providing access to healthcare services, including physical, mental, and reproductive health support.

Brief write-up about the program: -

On 23/12/2023, Dr. Preeti Jain, an expert in adolescent development and public policy, delivered an insightful guest lecture on government programs and policies designed to support adolescents. The lecture emphasized the importance of a multi-faceted approach to adolescent well-being, highlighting various government initiatives that target education, health, and social development. Key programs discussed included the **Rashtriya Kishor SwasthyaKaryakram (RKSK)**, a health initiative aimed at addressing the physical and mental health needs of adolescents, and the **National Scheme of Incentives to Girls for Secondary Education**, which promotes the education of young girls in rural and underserved areas. The speaker also touched on policies aimed at preventing child labor, increasing youth employment opportunities, and supporting adolescent mental health through school-based counseling and outreach programs. Overall, the lecture underscored the need for holistic support to help adolescents navigate the challenges of this critical stage in life, urging continuous improvements in government policies to ensure they are inclusive, accessible, and effectively implemented.

During the lecture, Dr. Jain, provided a comprehensive overview of the government's targeted efforts to support the unique needs of adolescents, a group often facing diverse and complex challenges. A central focus was on the **Adolescent Reproductive and Sexual Health (ARSH)** program, which aims to educate and empower young people about reproductive health, equipping them with the knowledge to make informed decisions. The lecturer highlighted the **National Adolescent Health Program** (also known as RKSK), which not only addresses physical health but also puts a significant emphasis on mental well-being, nutrition, and substance abuse prevention, acknowledging the holistic needs of young individuals.

Another key area discussed was the **Skill India Mission**, aimed at equipping adolescents with vocational skills, preparing them for future employment, and addressing the high rates of youth

unemployment. Dr. Jain, underscored the importance of such skill-building initiatives in bridging the gap between education and the job market. Additionally, the lecture covered the **Beti Bachao Beti Padhao** (Save the daughter, Educate the daughter) campaign, which seeks to combat gender discrimination and promote education for girls, especially in rural areas where dropout rates tend to be higher.

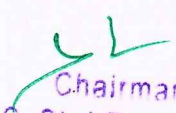

Furthermore, the **Integrated Child Protection Scheme (ICPS)** was highlighted as a crucial initiative for safeguarding vulnerable adolescents from abuse, neglect, and exploitation. This scheme ensures that adolescents who are at risk have access to shelters, counseling, and legal assistance. The lecturer emphasized the role of the **Mid-Day Meal Scheme**, which indirectly benefits adolescent nutrition, leading to better school attendance and performance, particularly among underprivileged youth.

The lecture also addressed how policies are being adapted to be more inclusive, especially for marginalized groups such as rural adolescents, adolescents with disabilities, and those from minority communities. Dr. Jain, encouraged a critical evaluation of the effectiveness of these programs, stressing that while there are numerous policies in place, the challenge lies in their implementation and the need for community involvement to ensure that they meet the real needs of adolescents.

By the end of the session, Dr. Jain, called for a collaborative effort among educators, healthcare providers, and policymakers to create a more inclusive, supportive environment for adolescents. The speaker highlighted the need for regular feedback mechanisms to refine and adapt policies, making them more dynamic and responsive to the changing landscape of adolescent needs in today's world.

Thank You.

“CONSUMER AWARENESS”

Guest Lecture

Organized by Department of Home Science

Date: -26/12/2023

No. of Students: -90

Name of the Details of the Resource Person: -Dr. Shweta Rath Shri Ram College
Muzaffarnagar.

Objective: To encourage consumers to choose products and services that are environmentally friendly, ethically sourced, and socially responsible.

Brief write-up about the program: -

On 26/12/2023, Good morning, everyone. Today, Dr. Shweta Rath, am honored to be here to speak about an important topic: *Consumer Awareness*. In today's market, consumers have more choices than ever before. However, with these choices come responsibilities and challenges. Consumer awareness is about understanding your rights and duties as a buyer. It involves being informed about the quality, price, and safety of products before making any purchase. A well-informed consumer can avoid fraudulent practices, recognize false advertising, and make decisions that benefit them in the long run. Remember, every consumer has the right to safety, to be informed, to choose, and to be heard. Being aware empowers us to make wise choices and helps create a fair and just market. Let's all strive to be responsible and informed consumers to ensure a better economy for everyone. Consumer awareness is all about understanding our rights and responsibilities as buyers. Every consumer has the right to safe and quality products, accurate information, freedom of choice, and the opportunity to have their voice heard. These rights are not just legal concepts but tools to protect us from exploitation, substandard products, misleading advertisements, and unfair business practices.

It's important to be aware of deceptive tactics that some companies may use, such as false claims, exaggerated benefits, and hidden charges. As informed consumers, we must make an effort to read labels, verify product information, compare prices, and seek out reliable sources for reviews. This will not only help us avoid poor choices but will also encourage companies to maintain high standards of quality and transparency.

Furthermore, we must recognize our responsibilities. Responsible consumption means considering the impact of our choices, not just on ourselves but on the environment and society at large. Supporting ethical brands, choosing sustainable products, and being conscious of overconsumption are steps we can take to promote a healthier market and planet.

Education plays a significant role in consumer awareness. Understanding consumer rights should be part of our basic knowledge. Institutions, governments, and organizations need to work together to spread awareness through campaigns, workshops, and consumer protection acts. In India, for example, the Consumer Protection Act serves as a strong tool to empower buyers. It allows consumers to lodge complaints and seek compensation if they feel wronged. Knowing how to use these tools is crucial to ensuring our rights are respected.

As we navigate this dynamic marketplace, let's not forget that every buying decision we make is a vote for the kind of market we want. Let's choose to be informed, responsible, and proactive consumers who contribute to a fairer, safer, and more transparent economy.

Thank you.

Guest Lecture

“Career Opportunities in Biology”

Department of Basic Science, Shri Ram College, Muzaffarnagar conducted a Career counseling Program on 19th May, 2024. The effort was made for the courses of Biology students to make them aware about various opportunities and trends in the field of Biology after the course completion in India and Abroad.

The program was carried out for effective One hour duration. The Resource person for the session was Dr. Peeyush Sharma, Assistant professor, S. D. College, Muzaffarnagar. He gave an elaborative introduction about the various opportunities and scope in the field of Biology. He suggested varied ways and ideas on how to opt the career in best of the institutions in India & Abroad also. He further highlighted that Career guidance plays a very important role in the lives of all individuals, as it helps in setting future goals and chooses careers. Career guidance is much needed service to those who did not plan for their future at an early stage; more should be done to assist the younger generations in personal career development.

At the end of the session the students cleared their doubts by asking various questions regarding the confusions, they usually face while deciding their career. The program ended with a powerful vote of thanks by Dr. Rahul Arya, Asst. Professor of Department of Basic Science. All the students were highly motivated and enlightened about various opportunities after completing their Course. It was a very informative day for the students and faculty members who attended the session.

बेसिक साइंस विभाग में हुआ अतिथि व्याख्यान

● जनवाणी संवाददाता, मुजफ्फरनगर श्रीराम कॉलेज, मुजफ्फरनगर के बेसिक साइंस विभाग द्वारा एक अतिथि व्याख्यान का आयोजन किया गया है। जिसका शीर्षक 'जीवविज्ञानी के लिये करियर के अवसर' रहा। इसके मुख्य वक्ता डा. पीयूष शर्मा रहे। डा. पीयूष शर्मा कौशल विकास इकाई, मुजफ्फरनगर के सहायक निदेशक एवं वर्तमान में एसडी (एडमिशन), कॉलेज, मुजफ्फरनगर में जन्तु विज्ञान विभाग में सहायक प्रोफेसर के पद पर कार्यरत हैं।

इस अवसर पर बेसिक साइंस विभाग की विभागाध्यक्षा डा. पूजा तोमर ने डॉ पीयूष शर्मा का विद्यार्थियों से परिचय कराया और उन्हें शुभेच्छाएं देकर उनका स्वागत किया। इस अवसर पर डा. पीयूष शर्मा ने विद्यार्थियों को जीव विज्ञान के क्षेत्र में करियर के बारे में बताते हुए कहा कि जीव विज्ञान के क्षेत्र में

शोध और व्यापार के अनेक मार्ग हैं। जीव विज्ञान ने अब चिकित्सा के साथ साथ कृषि और व्यापार दोनों ही क्षेत्रों में भी अपने कदम रख दिये हैं। इससे जीव विज्ञान का कार्यक्षेत्र व्यापक हो रहा है तथा रोजगार के अवसर भी बढ़ रहे हैं। डा. पीयूष शर्मा ने जीव विज्ञान के क्षेत्र में उच्च शिक्षा एवं शोध परियोजनाओं के लिए दिए जाने वाली विभिन्न परीक्षाओं के विषय में बताया तथा साथ ही कुछ विशिष्ट संस्थानों में प्रवेश के मार्गों की भी जानकारी दी।

उन्होंने ने विद्यार्थियों को वर्तमान से अवगत करते हुए कहा कि अगर हम अपने लक्ष्य को पाना है तो हमें कठिन परिश्रम करना होगा, क्योंकि आज के जीवन में अत्यधिक संघर्ष और प्रतिस्पर्धा है। हर कोई दूसरे से आगे बढ़ने की होड़ में लगा हुआ है। इन विषम परिस्थितियों में अपने योग्य व्यवसाय

पाना अत्यधिक मुश्किल हो गया है। उन्होंने अपनी उपलब्धियों के बारे में रोचक बातें बताते हुए विद्यार्थियों को प्रेरित किया। अन्त में डॉ पीयूष शर्मा ने विद्यार्थियों के करियर संबंधी प्रश्नों का उत्तर दिया तथा डॉ पूजा तोमर, विभागाध्यक्षा बेसिक साइंस ने डॉ पीयूष शर्मा को स्मृति चिह्न देकर सम्मानित किया। इस कार्यक्रम का सफल संचालन बेसिक साइंस विभाग के सहायक प्रवक्ता राजदीप सहरावत ने किया। डॉ राहुल आर्वा, सहायक प्रवक्ता बेसिक साइंस ने कार्यक्रम को सफल बनाने में सभी अतिथियों और विद्यार्थियों का धन्यवाद किया। अतिथि व्याख्यान को सफल बनाने में वायोसाइंस विभाग के विभागाध्यक्ष डा. विपिन कुमार सेनी, डा. रीतु पुंडेर, डा. मनोज मिश्रा, डा. ब्रह्म भारद्वाज, दिवेक, मोनल मान, रमा, सविन शर्मा आदि का सहयोग रहा।

-: About the Seminar:-

In the current social and environmental landscape, health challenges are multifaceted and interconnected. Socioeconomic disparities, mental health crises, climate change impacts, rapid urbanization, and lifestyle diseases intersect, amplifying their collective impact on public health. Addressing these challenges demands a holistic approach, integrating medical interventions with social, economic, and environmental considerations. Achieving health equity requires tackling underlying determinants such as income inequality, access to education, and environmental degradation. Collaboration among governments, healthcare providers, communities, and policymakers is essential to develop comprehensive strategies that promote well-being, resilience, and sustainability in the face of contemporary health challenges.

-: Objective of Seminar:-

The seminar aims to deepen understanding of the intricate relationship between social, environmental, and health factors impacting contemporary public health. It explores stress management, mental health, climate change, lifestyle interventions, and diseases to highlight the complexity of modern health challenges. Through expert presentations and interactive sessions, participants will grasp the interconnectedness and root causes of these issues, fostering innovative strategies for solutions. By inspiring collaboration among diverse stakeholders, the seminar seeks to develop holistic approaches promoting health equity, resilience, and sustainability amidst today's social and environmental context.

Concept - Note

The topic "Contemporary Health Challenges in the Current Social & Environmental Context" aims to dissect the intricate web of factors influencing public health in today's rapidly evolving landscape. Through insightful discussions and collaborative engagement, the seminar seeks to illuminate the interconnectedness of social determinants and environmental factors in shaping health outcomes. Themes to be explored include the impact of socioeconomic disparities, environmental degradation, lifestyle changes, and emerging infectious diseases on individual and community well-being.

Keynote presentations, expert panel discussions, and interactive workshops will provide a platform for stakeholders from diverse backgrounds to exchange knowledge, share best practices, and chart innovative solutions. By fostering interdisciplinary dialogue and leveraging collective expertise, the seminar aims to catalyze action towards addressing contemporary health challenges and promoting health equity and resilience in society.

In conclusion, the seminar endeavors to deepen understanding, inspire collaboration, and drive meaningful change in addressing the complex health challenges of our time. Through a holistic approach that considers both social and environmental contexts, the seminar aims to empower participants to contribute effectively to the advancement of public health and the well-being of communities worldwide.

A two-day international seminar on the topic of "Contemporary Health Challenges in Current Social and Environmental Context" was jointly organized by the Basic Science Department and the Home Science Department of Shri Ram College. The chief guest of the first day of seminar was Dr. Ishwar Chandra, Treasurer, Indian Medical Association, Muzaffarnagar. As special guests, Dr. SC Kulshreshtha, Founder, Shri Ram Group of Colleges, Dr. Perna Mittal, Principal, Shri Ram College, Dr. SN Chauhan, Director, Shri Ram Group of Colleges, Dr. Ravindra Pratap Singh, Director (Research), Muzaffarnagar, Dr. Vineet Kumar Sharma, Dean Academics, Shri Ram College, Dr. Suchitra Tyagi, Dean, Shri Ram College of Engineering lit the lamp. After lighting the lamp, Dr. Pooja Tomar, Head of the Basic Science Department and Dr. Shweta Rath, Head of the Home Science Department welcomed all the guests by giving them bouquets.

Dietician Dr. Ayushi Agarwal, Chief Social Worker, Dr. Anuradha Verma and Professor Dr. Shuchi Mittal from SD College Muzaffarnagar were the chairpersons of the program. on the first day of this program, Poster exhibition and oral speech were organized. Various participants expressed the negative effects of current social scientific and environmental activities through their posters and the measures to prevent them. On this occasion, the chief guest of the program, Dr. Ishwar Chandra, while presenting his views described the effects of current social and ecological activities on human health, diseases and efforts to prevent them and answered all the questions asked by the students in detail. He also told that maintaining physical and mental balance is also an essential task for health.

About Indian Industries Association

Industries Association (IIA) is an apex representative body of Micro, Small and Medium Enterprises (MSME) with a strong membership base of about 11000 Micro, Small and Medium Enterprises (MSMEs). IIA is a member of National Board of MSME as well as an accredited association from NABET, QCI with GOLD GRADE. IIA's motto is to create an enabling environment for the development of MSMEs in today's ever changing and extremely competitive industrial scenario.

IIA's formidable presence is the direct result of its extensive network of more than 50 chapters spread in most of the industrialized states of U.P, Delhi, Uttarakhand and surrounding states. It has carved a niche for itself as a leading perpetrator and facilitator in the MSME circle while striving for their cause since its inception in 1985.

In 1985, a group of committed young professionals joined forces and conceived the idea of an organization that can act as a catalyst for the promotion and growth for Micro, Small & Medium Enterprises. It was thus that U.P Chapter of NATE (National Alliance of Young Entrepreneurs) came into being. In July 1992, however, NATE was renamed Indian Industries Association (IIA) with the roles and objectives of the organization further widened to suit the needs of changing socio-economic environment.

nation. Today, I wish to speak on a topic that is both inspiring and challenging: how India can achieve its aspirational targets in the years to come.

India, with its rich heritage and dynamic youth, stands on the cusp of unprecedented growth. Our aspirations encompass becoming a \$ 55 trillion economy by 2047, achieving net-zero carbon emissions, ensuring 100% literacy, providing universal healthcare, and fostering innovation to emerge as a global leader in technology and infrastructure.

However, these ambitious goals demand a multifaceted approach and the active participation of every citizen. Let us delve into the strategies that can help us realize these aspirations. In next We must ensure that quality education reaches every corner of the nation, bridging the urban-rural divide. Introduce vocational training aligned with industry needs, fostering an ecosystem of entrepreneurship and employability. Leverage technology to make learning more inclusive and effective. Initiatives like digital classrooms, MOOCs, and AI-based learning tools can revolutionize education and he also highlighted the Modernizing roads, railways, ports, and digital connectivity to facilitate trade and mobility, small and medium enterprises are the backbone of our economy. Support through credit facilities, tax incentives, and skill-building will boost their growth Streamlining regulatory processes and fostering innovation through research and development. Expanding schemes like Ayushman Bharat to cover more citizens with quality medical services. Campaigns to raise awareness about hygiene, nutrition, and preventive healthcare. Use of AI, telemedicine, and mobile health apps to reach remote areas and many more and at last he said I urge each one of you to contribute in your capacity—be it as educators, policymakers, entrepreneurs, or students. Together, let us embark on this transformative journey and create a legacy that future generations will be proud of. Thank you, and Jai Hind!

जनजागरण अभियान : जल संरक्षण

सबको जागरूक नागरिक की तरह जल संरक्षण को अपना व्यक्तिगत उद्देश्य बनाते हुये जनता में जागृति लानी होगी। हमें अपने व्यक्तिगत आचरण में निम्नलिखित आदतें शामिल करनी होंगी।

- स्नान करते समय बाल्टी में जल लेकर शायर या टब में स्नान की तुलना में बहुत जल बचाया जा सकता है।
- पुरुष दाढ़ी बनाते समय यदि नल की टॉटी बन्द रखे तो बहुत जल बच सकता है।
- रसोई में जल की बाल्टी या टब में अगर बर्तन साफ करें, तो जल की बहुत बड़ी हानि रोकी जा सकती है।
- टॉयलेट में लगी पलश की टंकी में प्लास्टिक की बोतल में रेत भरकर रख देने से हर बार एक लीटर जल बचाया जा सकता है।
- पहले गाँवों, कस्बों और नगरों की सीमा पर या कहीं भीची सतह पर तालाब होते थे, जिनमें स्वाभाविक रूप में मानसून की वर्षा का जल एकत्रित हो जाता था। साथ ही अनुपयोगी जल भी तालाब में जाता था, जिसे मछलियाँ और मेंढक आदि साफ करते रहते थे और तालाबों का जल पूरे गाँव के पीने, नहाने और पशुओं आदि के काम में आता था। जरूरी है कि गाँवों, कस्बों और नगरों में छोटे-बड़े तालाब बनाकर वर्षा जल का संरक्षण किया जाय।
- नगरों और महानगरों में घरों की नालियों के पानी को गड्ढे बना कर एकत्र किया जाय और पेड़-पौधों की सिंचाई के काम में लिया जाय, तो साफ पेयजल की बचत अवश्य की जा सकती है।
- अगर प्रत्येक घर की छत पर वर्षा जल का भंडार करने के लिए एक या दो टंकी बनाई जाय और इन्हें मजबूत जाली या फिल्टर कपड़े से ढक दिया जाय तो हर नगर में जल संरक्षण किया जा सकेगा।
- घरों, मुहल्लों और सार्वजनिक पार्कों, स्कूलों अस्पतालों, दुकानों, मन्दिरों आदि में लगी नल की टॉटियाँ खुली या टूटी रहती हैं, तो अनजाने ही प्रतिदिन हजारों लीटर जल बेकार हो जाता है। इस बरबादी को रोकने के लिए जागरूकता बढ़ानी होगी।
- आज समुद्र के खारे जल को पीने योग्य बनाया जा रहा है, गुजरात के द्वारिका आदि नगरों में प्रत्येक घर में पेयजल के साथ-साथ घरेलू कार्यों के लिए खारेजल का प्रयोग करके शुद्ध जल का संरक्षण किया जा रहा है, इसे बढ़ाया जाय।
- बड़ी नदियों की नियमित सफाई बेहद जरूरी है। बड़ी नदियों के जल का शोधन करके पेयजल के रूप में प्रयोग किया जा सके, इसके लिए शासन-प्रशासन को लगातार सक्रिय रहना होगा।
- जंगलों का कटान होने से दोहरा नुकसान हो रहा है। पहला यह कि वाष्पीकरण न होने से वर्षा नहीं हो पाती और दूसरे भूमिगत जल सूखता जाता है। इसलिए वृक्षारोपण लगातार किया जाना जरूरी है।

अब समय आ गया है कि केन्द्रीय और राज्यों की सरकारें जल संरक्षण को अनिवार्य विषय बना कर प्राथमिक से लेकर उच्च स्तर तक नई पीढ़ी को पढ़वाने का कानून बनायें। पानी का दुरुपयोग हर स्तर पर कानून के द्वारा, प्रचार माध्यमों से कारगर प्रचार करके और विद्यालयों में पर्यावरण की ही तरह जल संरक्षण विषय को अनिवार्य रूप से पढ़ा कर रोका जाना बेहद जरूरी है।

Awareness Program on Water Conservation

1. Introduction

Water conservation is an essential practice to ensure sustainable water resources for future generations. On 04/05/2024 an awareness program on water conservation was held at Shri Ram College, Muzaffarnagar in association with Himalayan Management and Development Resources Institute, Rishikesh. The primary objective of the event was to educate students about the importance of water, the challenges of water scarcity, and practical methods of conserving water.

2. Objectives of the Program

- To raise awareness about the growing issue of water scarcity.
- To educate students on how they can contribute to water conservation in their daily lives.
- To promote sustainable practices for water management both at home and school.
- To motivate students to become ambassadors for water conservation in their communities.

3. Program Structure

The awareness program was conducted in the following structured format:

Session 1: Introduction to Water Conservation

- Overview: The session began with an introduction to the global and local water crisis, highlighting statistics related to water usage and scarcity. The speaker provided insights into the role of water in ecosystems, agriculture, and human life.
- Key Topics:
 - Importance of water for life
 - The global water crisis and its impact

- Water wastage statistics

Session 2: Practical Water Conservation Methods

- **Overview:** This session focused on actionable steps students could take to conserve water at home, school, and in their communities. Techniques such as rainwater harvesting, efficient water usage, and minimizing wastage were covered.
- **Key Topics:**
 - Fixing water leaks
 - Using water-efficient appliances
 - Promoting rainwater harvesting
 - Behavior changes like turning off the tap while brushing, using less water for cleaning, etc.

Session 3: Closing Remarks and Pledge

- **Overview:** The program concluded with a message of hope and encouragement, urging students to take individual responsibility for conserving water. The students then took a collective pledge to adopt water-saving habits in their daily lives and encourage others to do the same.

4. Outcome of the Program

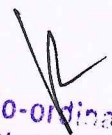

The awareness program was met with enthusiasm and engagement from the students. The following outcomes were observed:

- **Student Participation:** All 219 students actively participated in the sessions.
- **Awareness Increased:** Through the program, students gained a deeper understanding of the water crisis and the simple steps they can take to reduce water waste.
- **Pledge:** The students collectively pledged to conserve water at home and college and to spread awareness within their communities.

5. Conclusion

The awareness program on water conservation successfully achieved its goals of educating students on the importance of water conservation and motivating them to adopt sustainable practices. The program provided the students with valuable knowledge and tools to conserve water in their daily lives and inspired them to be ambassadors of change in their communities.

This initiative is an important step in fostering a culture of environmental responsibility among the younger generation.
