Report on Participation in Millet Mahotsav

Theme: *Food Sustainability, Nutrition and Entrepreneurship*
Date: 13 December 2024
Venue: IIMT University, Meerut

The students of the Department of Agriculture, Shri Ram College, Muzaffarnagar participated in the **Millet Mahotsav on the theme "Food Sustainability, Nutrition and Entrepreneurship"** held on **13th December 2024 at IIMT University Meerut.** The event aimed to promote awareness about the nutritional, environmental, and entrepreneurial importance of millets.

Millets are considered highly nutritious grains rich in fiber, minerals, and antioxidants and play a crucial role in ensuring food security and sustainable agriculture. Their resilience to harsh climatic conditions makes them important crops for sustainable food systems.

A group of enthusiastic students from **Shri Ram College, Muzaffarnagar** actively participated in the Mahotsav under the guidance of faculty members. During the event, students prepared and presented a variety of innovative and nutritious dishes made from different millets such as **bajra, ragi, and jowar**. These dishes highlighted the versatility of millets in modern food preparations and demonstrated their potential for healthy diets and value-added food products.

The millet-based dishes prepared by the students included traditional as well as modern recipes, showcasing creativity, taste, and nutritional value. The presentation of dishes was appreciated by the judges, faculty members, and other participants present at the event. Through this activity, students gained practical exposure to the **nutritional significance, culinary uses, and entrepreneurial potential of millet-based food products.**

The Millet Mahotsav also provided an excellent platform for interaction with students from other institutions, experts, and academicians working in the field of food science and nutrition. Participants learned about the importance of millets in promoting **sustainable agriculture, healthy diets, and rural entrepreneurship.**

Overall, the participation of students from Shri Ram College in this event proved to be a **valuable learning experience.** It encouraged students to explore innovative food products based on millets and increased their awareness about sustainable food practices and nutrition. The event successfully motivated students to promote the use of millets in daily diets and to consider **entrepreneurial opportunities in millet-based food products.**

The programme concluded with appreciation from the organizers for the active participation and creative presentations by the students.
