Permission Letter

Date: 11-10-2024

To
The Director
Shri Ram College, Muzaffarnagar

Subject: Permission to Organize a Workshop on Lily Cultivation

Respected Sir,

I respectfully request permission to organize a workshop on **Lily Cultivation** at our institution on 22-10-2024. The objective of this workshop is to enhance the knowledge and practical skills of students and farmers regarding advanced techniques in lily production, which is an important commercial floriculture crop.

We propose to invite an expert from Holland, who has specialized knowledge and international experience in modern lily cultivation practices. The workshop will provide valuable insights into planting techniques, nutrient management, disease control, and post-harvest handling.

The proposed workshop will greatly benefit students, researchers, and local farmers by exposing them to global standards and innovative approaches in floriculture. We plan to conduct this program on a suitable date with proper arrangements for lectures, demonstrations, and interactive sessions.

I kindly request you to grant permission to organize this workshop. Your support will help in making this program successful and beneficial for all participants.

Thanking you.

NOTICE

Date: 16-10-2024

All the students are hereby informed that a **Workshop on Lily Cultivation** is being organized by the college for enhancing practical knowledge in the field of floriculture.

An expert from Holland will deliver lectures and provide hands-on training on advanced techniques of lily cultivation, including planting methods, nutrient management, disease control, and post-harvest practices.

Details of the Workshop:

- **Topic:** Lily Cultivation
- **Resource Person:** Expert from Holland
- **Date:** 22-10-2024
- **Time:** 10:00 am onwards
- **Venue:** Shri Ram College Muzaffarnagar

All interested students are encouraged to attend the workshop and take advantage of this opportunity to gain international exposure in floriculture practices.

For further details, students may contact the undersigned.

REPORT ON WORKSHOP ON LILY CULTIVATION

A workshop on **Lily Cultivation** was successfully organized by Department of Agriculture on 22-10-2024 at Shri Ram College, Muzaffarnagar. The program was conducted with the objective of enhancing the knowledge and practical skills of students in the field of floriculture, particularly focusing on the commercial cultivation of lilies.

The workshop was graced by an expert from Holland, who possesses extensive experience in advanced floriculture techniques. The program commenced with a welcome address by Dr. Umara Rahmani, who highlighted the importance of floriculture in modern agriculture and the growing demand for ornamental crops like lilies in both domestic and international markets.

During the workshop, the resource person delivered an informative lecture on various aspects of lily cultivation, including selection of suitable varieties, soil and climate requirements, planting techniques, nutrient management, irrigation practices, and integrated disease and pest management. Special emphasis was given to modern cultivation practices followed in Holland, which are known for high productivity and quality flower production.

A practical session was also conducted, where students were demonstrated the methods of bulb planting, spacing, and post-harvest handling of flowers. The interactive session allowed students to clarify their doubts and gain deeper insights into commercial lily production.

The workshop witnessed active participation from students, who showed great interest and enthusiasm throughout the program. Such initiatives help bridge the gap between theoretical knowledge and practical application, and also provide exposure to international standards in agriculture.

The program concluded with a vote of thanks delivered by Dr. Ashok Kumar, expressing gratitude to the expert for sharing valuable knowledge and to the participants for their active involvement.

Overall, the workshop proved to be highly informative and beneficial for all attendees, contributing significantly to their academic and practical understanding of lily cultivation.
